ADVENTURE IS CALLING

With over 30 years of water sports experience, Aquaglide prides itself on being an innovator and pioneer of quality inflatable water play products. Our kayaks and SUP's have changed the way people think about inflatables. By combining thoughtful, purpose-built designs with exciting new technologies, Aquaglide has created a new breed of water craft never before possible; performance inflatables. These innovative boats and boards are designed to fit perfectly with your lifestyle and inspire the confidence to pursue your next adventure, wherever that may lead.

For 2018, the Aquaglide kayak range has been carefully refined and improved. Several small points have been changed to enhance your experience. One thing that hasn't changed is the way we do business. We maintain our ongoing commitment to listen to feedback from our partners and customers and to sell only through the finest retailers.

We've created not only fun, exciting products, but also a community of people around the world who are inspired by their time on the water and anxious to share their experiences. Designed in the Pacific Northwest of the United States and tested globally, we are certain that the following pages hold your next adventure.

AG *Aquaglide*

CHOOSING YOUR KAYAK

Why limit yourself with roof racks and cumbersome storage when you can have all the performance benefits of a top quality kayak stored in a backpack at a fraction of the weight? With so many types of boats, choosing the right kayak to fit your lifestyle can be a daunting task.

Aquaglide Kayaks are lightweight, durable, portable, and most importantly, performance-oriented. These attributes make them ideally suited for recreational paddling, touring and adventure travel.

STEP 1: CHOOSE FUNCTION(S)

The first step in choosing a boat is to determine what type of paddling you'd like to do. Most boats easily cover different types of paddling, but envisioning how you will use the boat can help narrow the choices. Try picking your top 1-3 Functional performance categories from the list below. Compare these to the Functional charts for each series to help find a good match.

PERFORMANCE CATEGORIES

Each boat has its own unique blend of attributes which enable it to perform well in specific circumstances. This is the overview about what type of use each boat excels at.

Recreational

Aquaglide Kayaks are all about fun on the water. To be fun in a wide range of conditions, these boats offer a well-balanced selection of attributes.

Touring

Expand your adventures! Touring is all about going places. To accomplish that goal, these boats favor attributes like speed, tracking and comfort needed for longer outings.

Expedition

Aquaglide kayaks are ideally suited for adventure travel. Expedition boats favor a balanced blend of speed, tracking & comfort, plus stability, durability & storage capacity.

Whitewater

What greater rush than finding the right line down a surging river? Whitewater boats require a blend of stability, quick maneuverability and excellent drainage.

Angling

Nearly all Aquaglide kayaks are fishing ready! Boats best-suited for angling offer excellent stability, comfort, durability, drainage and room for gear. Comes with rod holders on each seat.

STEP 2: CHOOSE SIZE

The next step is to choose a size. Choosing the right boat means considering how much space you want for paddlers and for gear.

Shorter boat = more maneuverable, better for moving water, a shorter distance on flatwater, lightweight, easy to carry, and transport.

Longer boat = better tracking and glide. The longer the boat, the easier to paddle more distance, more capacity for gear, and paddlers.

One-Person

Capacity for 1. Best for moving water. Ease of transport.

Two-Person

Small tandem. Capacity for 1-2. Best for solo paddling performance. Great for one adult plus a kid or furry friend, fits two small to medium-sized adults.

Tandem XL

True tandem. Capacity for 1-3. Best as a dedicated tandem, for two medium to large adults plus a small child or furry friend. Great for solo paddler needing maximum gear capacity.

STEP 3: CONSIDER ATTRIBUTES (OPTIONAL)

If your choice is already made, comparing attributes may be an unnecessary detail. However, going a step beyond the general functionality and sizing of a boat to compare the specific attributes described on the next page can help cinch the decision between two similar boats. Each boat features an attributes chart to help convey its strengths.

ATTRIBUTES

These are the details that help to tell the story about each boat.

Speed

How fast the boat moves through the water.

Tracking

How straight the boat travels.

Stability

How stable the boat is from side to side.

Maneuverability

How responsive the boat is to turning input.

Comfort

Softer materials and padding for long outings.

Durability

Tougher materials which wear better, less maintenance.

Storage

How much space is available for gear.

Drainage

How well suited is the boat for rough water-type drainage.

Open cockpit design

Easy to get in and out of. Versatile can convert it to a decked boat for cold weather paddling with our optional decks.

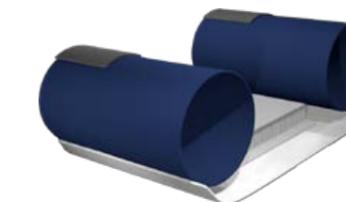

Self Bailing

Just like a sit-on-top kayak, our hard bottom boats position you above water level and have built-in scuppers that drain water out of the kayak.

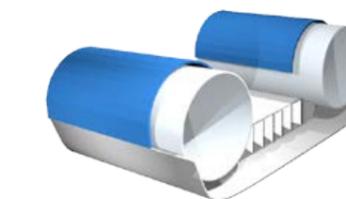

STEP 4: CHOOSE CONSTRUCTION

Aquaglide Kayaks are built using innovative technologies to provide the best combination of attributes for a given purpose. In many cases, your previous choices will have already determined the right construction to meet your needs. If not, the final step in choosing a boat may be to choose the type of construction best suited to your needs.

Duratex™ HB™ Construction

Expedition-grade Duratex™ material provides unmatched durability and performance. High-pressure HB floor creates a solid Hard-Bottom™ platform that is incredibly stiff and responsive. HB floor supports up to 12 psi (0,83 bar) air pressure for a hull that is as stiff as fiberglass and stable enough to stand up in. Best suited for performance paddling, expedition use, outfitters or anyone who demands the very best in quality and performance. Found on Chelan™ HB, Blackfoot™ HB and Klickitat™ HB Series.

Polyester XP™ Construction

Rugged 600d polyester cover provides comfort, performance and excellent UV protection for 24 gauge internal PVC bladders. Duratex bottom material offers strength and durability below the waterline. Aquaglide's proprietary XP floor™ uses X-beam Technology to produce a stiff, durable PVC beam floor for excellent performance and value. Best suited for recreational paddling, occasional travel, touring or those most interested in a balance of comfort, performance and value. Found on Columbia™ XP, Chinook™ XP, and Rogue™ XP Series.

BLACKFOOT ANGLER HB

If casting big dryflies for hungry cutthroat is your passion, then the Blackfoot Angler HB is designed for you.

Named after the legendary Blackfoot River in Montana, our rugged kayak will effortlessly glide you into your favorite honey hole on the river of your choice. Designed specifically for anglers with plentiful Scotty® mounts for rod holders and other bolt-on accessories, the Blackfoot can be completely customized to tackle the wildest angling missions of your dreams.

Industry leading stiffness, which is crucial for efficient paddling and casting, is forged through the use of premium grade drop-stitch combined with our proprietary Powerstrip™. The commercial-grade Duratex™ hull construction provides long-lasting performance while the forward Splash-Guard™ helps keep you dry while you paddle to your secret fishing spot. With sturdy molded handles positioned around the boat you will be able to board the boat easily and quickly. As a final touch on the XL, we provide you with a mounted Rugged Core™ seat on a removable, raised platform for a higher seating position. Equipped with a high backrest, mesh storage pocket, integrated fishing-rod holders, fore and aft support straps and an infinite adjustment system not only will you be able to paddle efficiently but you'll be able to do so in absolute comfort. The Blackfoot Angler comes with a high-performance fin system includes a stiff, durable, foiled fin with unique quick-release for easy setup. Convenient backpack travel bag included. To unleash the full potential we suggest using one of our High Pressure Pumps with HB boats. Pump sold separately.

BLACKFOOT ANGLER HB XL

Capacity for two, but designed as a very spacious one-person boat for technical angling at its finest! This premium model includes Blackfoot fishing cooler, booster seat, and 7 Scotty fittings. Extra wide tubes for maximum stability and weight capacity.

Cooler with 4 Rod Holders, Chart Display and pockets

Heavy duty carry bag for transport and storage

Scotty accessories. *Scotty® accessories sold separately

CHELAN HB

Florida, U.S.A.

Chelan™ HB is designed for touring, adventure and all-around use.

The Chelan HB Series is one of the best selling touring designs on the market. With a long waterline, flat rocker and fine, piercing bow this kayak will provide you with great tracking ability and outstanding glide to cover long distances on your adventures with ease.

Chelan HB boats combine our tough Duratex™ tube construction with the supremely rigid Hard-Bottom™ floor for an expedition-grade boat that will last for many years. This combination of materials in the Chelan's construction creates a stiff and responsive inflatable that performs just as well as a traditional hard shell kayak at a fraction of weight. The innovative Splash-Guards™ positioned fore and aft of the cockpit help keep paddlers dry and the ample accessory straps grace the bow and stern providing easy stowage for dry bags or other gear. Sturdy molded handles are positioned around the boat for convenient boarding and transport. For added comfort the PRO-formance™ seats provide an array of thoughtful features including adjustable air cushion, high backrest, plentiful mesh storage pockets, integrated fishing-rod holders, fore and aft seat straps so that you can enjoy your time on the water to its fullest. The high-performance fin system includes a stiff, foiled fin with unique quick-release for easy setup and comes a convenient backpack travel bag. To unleash the Chelan's full potential we suggest using one of our High Pressure Pumps with HB boats. Pump sold separately. Optional Touring Deck Covers available for Chelan Series.

Construction

1. HB™ Floor-Reinforced 8cm Dropstitch
2. Tubes 1000 denier, 850GSM Duratex Reinforced PVC
3. Hull - 500 denier, 600G Duratex Reinforced PVC

Heavy duty carry bag for transport and storage

CHELAN HB TANDEM XL

A true touring tandem with high capacity for 3 users, but optimally designed for two adults plus a child, pet or extra gear. A great solo with maximum capacity gear.

KLICKITAT HB

White Salmon River | Washington, U.S.A.

The Klickitat™ is the ultimate thrill seeker's inflatable kayak.

Created with a traditional river running outline this kayak series has exceptional stability with ample rocker for maneuverability and control in rough water.

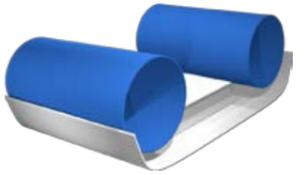

These boats combine our tough Duratex™ tube construction and Hard-Bottom™ floor design for an expedition-grade boat that will let you tackle whitewater with confidence. The Klickitat's hull construction provides long-lasting performance for whatever comes your way and the high-pressure HB floor creates a solid Hard-Bottom platform that feels every bit as stiff and responsive as a hard shell kayak.

The plentiful cockpit drains give you the freedom to configure the boat for self-draining (white water), or dry use, as conditions dictate. There are also ample cockpit tie-downs so that you can pack all the gear you need and then some. Combine these features with the Rugged Core™ seats that include a high backrest, mesh storage pocket, integrated fishing-rod holders, fore and aft support straps and an infinite adjustment system and you'll be more than ready to explore new and exciting rivers and rapids. High-performance fin system includes stiff, durable, foiled fin with unique quick-release for easy setup. Convenient backpack travel bag included.

To unleash the full potential we suggest using one of our High Pressure Pumps with HB boats. Pump sold separately, see Accessories page for pump options.

Construction

1. HB™ Floor-Reinforced 8cm Dropstitch
2. Tubes 1000 denier, 850GSM Duratex Reinforced PVC
3. Hull - 500 denier, 600G Duratex Reinforced PVC

Heavy duty carry bag for transport and storage

KLICKITAT HB TWO

A versatile all-purpose boat that comfortably fits two adults with room to spare. Excellent for recreational paddling, commercial or whitewater use.

Specifications	12'6" L x 38" W (381 cm L x 97 cm W)
Weight	33 lbs. (15 kg)

Weight	20 lbs. (9 kg)
Capacity	300 lbs. (136 kg)
	1 PERSON

COLUMBIA XP

Lewis River Falls | Washington, U.S.A.

The Columbia™ Series is designed for recreational touring and all-around use for paddlers.

Loaded with convenient features, Columbia XP are among the most popular boats. The long waterline, flat rocker and fine, piercing bow provide outstanding tracking ability and great glide to cover long distances with ease, so you can get on the water faster.

The XP floor™ construction uses an inflatable chamber with Aquaglide proprietary X-beam Technology that mimics that of a sturdy hard shell kayak. Our custom made Duratex™ hull material is blended with rugged 600d polyester for long-life and UV protection so that you can enjoy your kayak for years of adventures to come. The integrated Splash-Guards™ positioned fore and aft help keep paddlers dry while ample accessory straps grace the bow and stern for easy storage of all your gear essentials. The sturdy molded handles are positioned around the boat for easy boarding and transport. We also made sure that our Durable Core™ seats will provide you with the most comfort with high backrests, plentiful mesh storage pockets, integrated fishing-rod holders, fore and aft seat straps and an infinite adjustment system. Fin system includes stiff, foiled performance fin with unique quick-release for easy setup. Convenient travel backpack included. Pump sold separately, see Accessories page for pump options.

Construction

1. Floor - Polyester covered PVC X-Beam
2. Cover - 600 denier PU2-Coated Polyester
3. Bladder - 24 gauge K80 PVC
4. Hull - 500 denier, 600G Duratex Reinforced PVC
5. Gunwale Pad-Neoprene

Heavy duty carry bag for transport and storage

COLUMBIA XP TANDEM XL

CHINOOK XP

White Salmon River | Washington, U.S.A.

The Chinook Series is designed for all-purpose recreational use and exceptional value for the adventure seeker in you.

A stable, efficient hull form, the Chinook Series offers plenty of cockpit space and our proprietary XP floor™ Technology for outstanding value and excellent paddling performance. Eminently versatile by design and loaded with convenient features, this kayak series is an especially popular choice for recreational paddlers like you looking to enjoy a great time on the water on all of their awesome adventures.

The Chinooks XP floor construction uses an inflatable chamber with Aquaglide proprietary X-beam Technology to produce a stiff, durable PVC beam floor while the Duratex™ hull material is blended with rugged 600d polyester for long-life and UV protection. The multiple accessory straps let you haul all the gear you want for easy stowage while sturdy molded handles around the entire kayak let you board comfortably and easily so you can get on your way quickly. The finishing touch includes our Comfortable Core™ seats that include a high backrest, mesh storage pocket, integrated fishing-rod holders, forward-only seat straps and an infinite adjustment system for convenience. The fin system includes stiff, durable, foiled fin with unique quick-release for easy setup and the convenient storage bag lets you pack out with ease so you can head on home after having the most epic day. Pump sold separately, see Accessories page for pump options.

Construction

1. Floor - Polyester covered PVC X-Beam
2. Cover - 600 denier PU2-Coated Polyester
3. Bladder - 24 gauge K80 PVC
4. Hull - 500 denier, 600G Duratex Reinforced PVC

Heavy duty carry bag for transport and storage

ROGUE XP

Florida, U.S.A.

Ideal for fishing, diving or just playing, the Rogue Series offers functional sit-on-top utility.

The wide, stable outline and open stern let you easily re-board from the water while an open cockpit provides effortless drainage.

Featuring our proprietary XP floor™ Technology, and 600d polyester deck cover, the Rogue Series represents an outstanding value for any recreational paddler considering a sit-on-top kayak. The Rogue's XP floor uses an inflatable chamber with Aquaglide proprietary X-beam Technology to produce a stiff, durable PVC beam floor. The Duratex™ hull material is blended with rugged 600d polyester for long-life and excellent UV protection. With the combination of these materials, the Rogue is built to take any adventure that comes your way. To finish it off, the Rogue's rear accessory straps provide good stowage for toys or gear while strong padded handles are found all around the boat for convenient boarding and transport while the supportive Core™ seats offer many thoughtful features including high backrest, mesh storage pocket, integrated fishing-rod holders. Fin system includes stiff, durable, foiled fin with unique quick-release for easy setup. Storage bag and pump sold separately, see Accessories page for options.

ROGUE XP TWO

An ideal sit-on-top for family use, with room for two paddlers plus gear.

YAKIMA

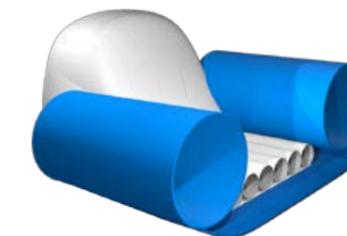

Lewis River Falls | Washington, U.S.A.

The Yakima™ provides comfort and stability for all of your adventuring needs.

This kayak offers a deep, stable cockpit ideal for recreational use with up to two people. The high sides and polyester deck skirts help keep paddlers dry while two supportive Yakima seats help keep you and your paddling comrade comfortable. The inflatable floor design reduces the wetted surface area for improved paddling efficiency while the 24 gauge K80 PVC and 600d polyester deck cover for UV protection help to make this kayak last for adventures to come. Stores easily. The Yakima has exceptional value in a great recreational package! Storage bag and pump sold separately, see Accessories page for options.

- Construction**
1. Floor - PVC I-Beam
 2. Hull - 24 gauge K80 PVC
 3. Seats - 24 gauge K80 PVC

L 90.5" - 94.5" x W 6.75"
2 lbs. (0,90 kg) - 3 lbs. (1,36 kg)

KAYAK ACCESSORIES AND SEATS

Core™ Seat Features

- 1. Foam Cushion** - Durable seat cushion for comfort and support.
- 2. High Backrest** - Supportive foam for comfort and performance.
- 3. Mesh Storage** - Large mesh pocket for convenient storage.
- 4. Rod Holder** - Integrated rod-holders so each boat is fishing capable!
- 5. Support Straps** - Adjustable, quick connect straps provide solid seat support for maximum performance and minimum hassle.

PRO-formance™ Seat Features

- 1. Air Cushion** - Easily adjustable cushion allows each user to customize the seat to their preference.
- 2. High Backrest** - Dual-density foam for unsurpassed support and comfort.
- 3. Mesh Storage** - Numerous mesh pockets, both large and small, for convenient storage at your fingertips.
- 4. Rod Holder** - Integrated rod-holders makes every boat fishing capable.
- 5. Support Straps** - Adjustable, quick connect straps provide solid seat support for maximum performance with minimum hassle.
- 6. Infinite Adjustment** - Heavy-duty Velcro® adjustment system means seat positions can be easily refined.

ACCESSORIES

FISHING COOLER

Our custom designed Cooler is a must-have accessory for anyone spending extended time on the water. The main cooler compartment offers 9qts (8.5L) of lined, insulated storage space; the perfect fit for up to 24 chilled 12oz cans with ice. The exterior is loaded with features such as 4 extended rod holders, 2 side zipper pockets, a generous front pocket for lures and gear, plus a clear map/ license pocket built into the cooler's top. Velcro bottom connects to any Aquaglide kayak with Infinite Adjust floors, plus the Cooler also includes plentiful handles and lashing points making it convenient for other uses. Stay hydrated, stay longer, stay happy.

*Fits all models with infinite Velcro floor system.

THIGH STRAPS

Fits all models except Yakima™, Rogue™ Series, Panther™ XP & Chinook™ XP One.

DRY BAG

Dry bag for dry storage of your items.

TOURING COVERS

Aquaglide Touring Deck Covers will let you paddle ALL year round. If you are a kayaker who prefers a traditional closed-deck kayak then these deck covers are exactly what you need.

Designed to fit both the Chelan™ HB and Columbia XP Series, our Touring Deck Covers are made from rugged 600 denier polyester and supported with rigid fiberglass battens for a nicely domed shape that repels water easily. The Deck Covers can be left in place permanently, or installed/removed in a matter of minutes and they also include many features to help make your paddling experience even more enjoyable. The vinyl map pocket and inflatable cockpit coamings help to keep water out and with easy installation, it is no wonder why you would want this kayaking accessory. Touring Deck Covers include everything necessary for quick installation and can be used with a kayak skirt if needed. Skirt not included.

TOURING TWO - DOUBLE COVER

Fits 2-person versions of Columbia Expedition HB, Columbia XP, and previous Columbia models

TOURING TANDEM - DOUBLE COVER

Fits Tandem versions of Columbia Expedition HB, Columbia XP, and previous Columbia models

TOURING ONE - SINGLE COVER

Fits 1-person versions of Chelan HB, Columbia XP and previous Columbia models

TOURING TWO - SINGLE COVER

Fits 2-person versions of Columbia Expedition HB, Columbia XP and previous Columbia models

TOURING TANDEM - SINGLE COVER

Fits Tandem versions of Columbia Expedition HB, Columbia XP and previous Columbia models

KAYAK FEATURES

Accessory Straps
Adjustable elastic straps keep gear close at hand while underway.

Paddle Keeper
Handy paddle keepers retain the paddle so hands are free for other tasks.

Extra Large Custom Foil High Performance Fin
Adjustable foot rest provides unlimited options for adjustment improving comfort and paddling efficiency

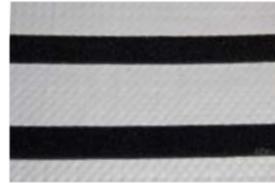

Extra Large Custom Foil High Performance Fin (US Fin Box)
Custom foil high performance fin allows for great tracking in multiple conditions.

Saddle Seat
Compact saddle provides third-passenger seating without being in the way.

D-Rings
Heavy duty D-rings for accessory tie-down and seating support.

Infinite Adjust Velcro® Floor
Allows for infinite fine-tuning of seat and accessory positions.

Adjustable Foot Rest
Adjustable foot rest provides unlimited options for adjustment improving comfort and paddling efficiency

Splash-Guard™
Protects the cockpit and helps keep paddlers dry.

Duratex™
Commercial grade fabric reinforced PVC material allows for extreme durability and longevity.

Scupper Holes
Closed to keep water out for a dry ride or open for self bailing if in rough water.

High Pressure Valve
High-pressure spring valve uses common high-pressure fitting.

Boston Valve
Uses common Boston valve fitting for easy inflation/ deflation.

Cockpit Drain
Allows easy drainage of water from the boat.

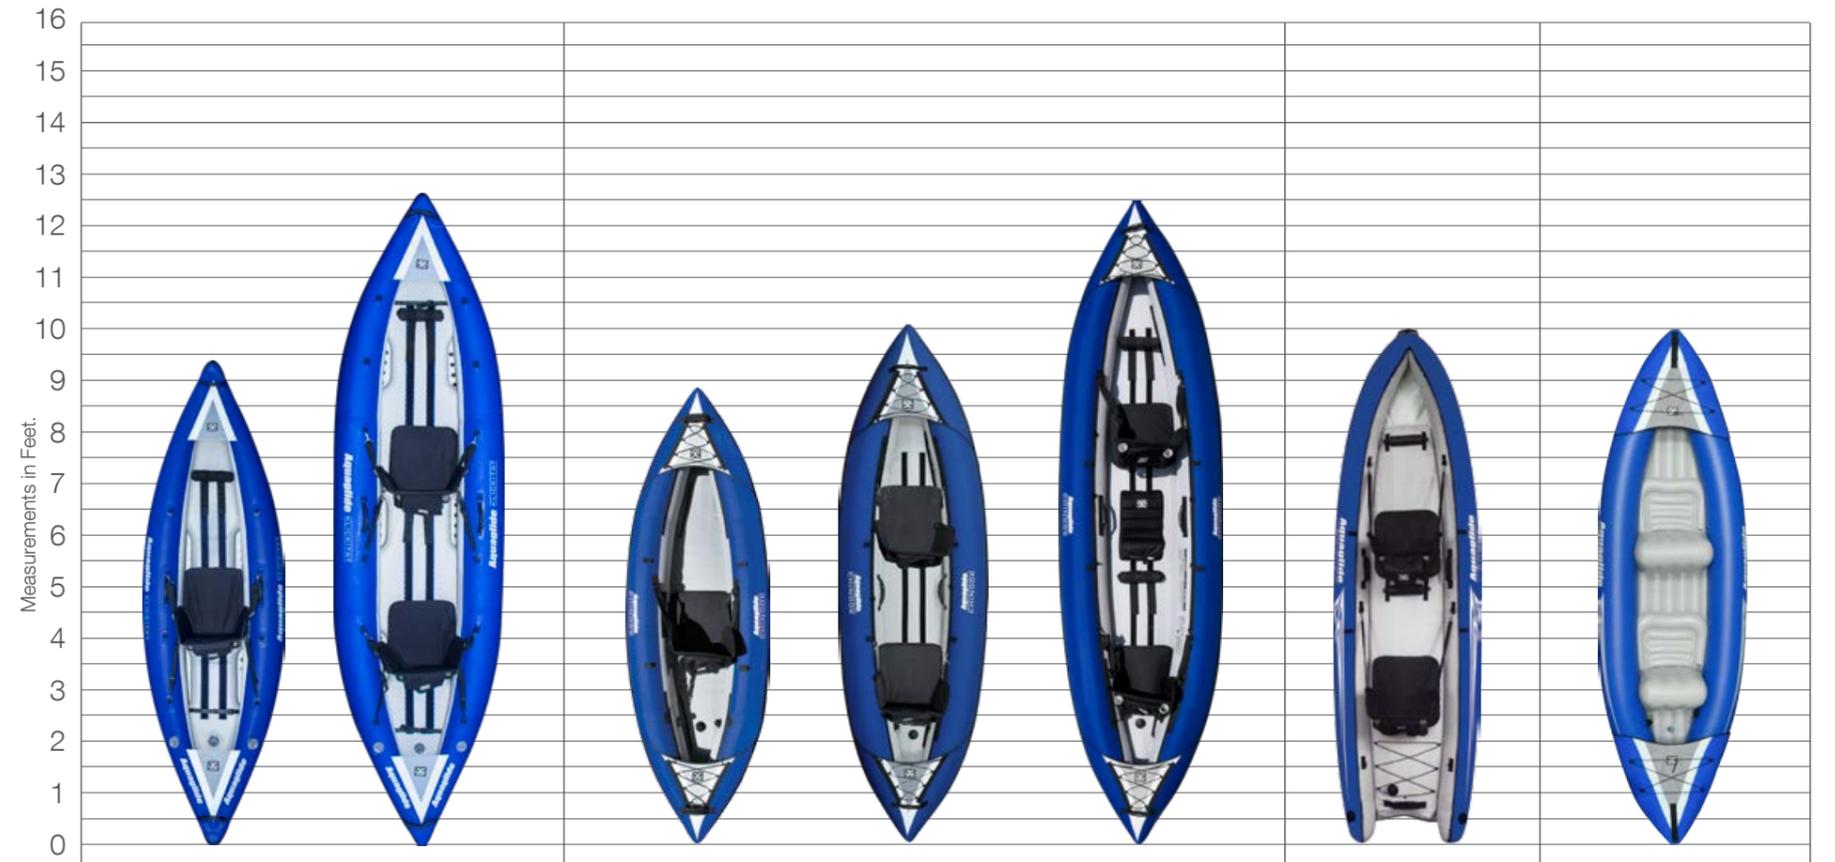

Molded Handle
Sturdy molded handles are ideal for boarding and transport.

CASCADE

The Cascade™ Series inflatable SUP boards are the ideal SUP for the apartment dweller or someone who is limited on space.

Ideally suited for travel, or tight storage requirements, these boards are durable enough for you to take on a whitewater adventure and compact enough to roll up and fit in small spaces. The Cascade is ideal for boaters and families! Made from the best quality drop-stitch material with extra Powerstrip™ reinforcements, this inflatable SUP inflates to 14 - 18 psi, making them incredibly stiff for the most efficient paddling experience. The fin system has been updated with the stiffest interface on the market, with quick and easy tool-free mounting for your easy use.

Cascade Technology

The inflatable technology used in our Cascade series starts with high quality, high-density drop stitch material that is rated for pressures up to 18 psi. High pressure is key to making these boards perform as close as possible to hard-shell boards. It is then reinforced with layers of PVC for extra stiffness and durability, and fitted with a diamond groove EVA deckpad. The Cascade series also features a US fin box, which improves stiffness and interchangeability, allowing it to accept the most popular replacement fins on the market.

Each Cascade SUP Includes Crossroads DLX Backpack and Dual Action Hand Pump 25

CASCADE 10'0"

Great for kids and light to medium weight paddlers, this board uses 4" thick drop-stitch material to save weight and cost.

10'0" x 32" x 6"
 (305cm x 81cm x 10cm)
 6" (15cm) drop stitch
 22 lbs. 1 oz. (10 kg)
 170 L, Riders <180 lbs. (82 kg)

CASCADE 11'0"

With enough volume to float anyone up to 230 pounds, the Cascade 11'0" also provides added stiffness thanks to 6" drop-stitch material and extra Powerstrip reinforcements.

11'0" x 32" x 6"
 (335cm x 81cm x 15cm)
 6" (15cm) drop stitch
 27 lbs. (12,2 kg)
 210 L, Riders <230 lbs. (105 kg)

CASCADE 12'0"

Extra length and the narrow touring nose offer excellent tracking, speed, and stability for riders of all sizes. 6" drop-stitch material and extra Powerstrip reinforcements add significant stiffness for better performance.

12'0" x 32" x 6"
 (366cm x 81cm x 15cm)
 6" (15cm) drop stitch
 29 lbs. 4 oz. (13,3 kg)
 250 L, Riders <230 lbs. (105 kg)

CASCADE WIND SUP

The Cascade Wind SUP board is ideal for persons and families looking for one easily transportable board that works great for both windsurfing and standup paddling activities. The “Wind” aspect of the board allows for a very compact SUP that requires little space for storage or transport. The board, board parts and pump all fit inside a backpack type of bag making ideal for travel. This board insures fun for all - with or without wind.

Important features include a backpack style carrying case, fins, daggerboard system, and a pump with a built in gauge to provide accurate inflation. Windsurfing Rigs (sold separately) can be attached through an insert attachment in mid deck area. Made from the best quality drop-stitch material with extra Powerstrip™ reinforcements, this inflatable SUP inflates to 14 - 18 psi, making them incredibly stiff. The inflatable technology used in our Cascade series starts with high quality, high density drop stitch material that is rated for pressures up to 18 psi. High pressure is key to making these boards perform as close as possible to hard-shell boards. It is then reinforced with layers of PVC for extra stiffness and durability, and fitted with a diamond groove EVA deckpad. The Cascade series also features a US fin box, which improves stiffness and interchangeability, allowing it to accept the most popular replacement fins on the market.

Includes an integrated mast base pinhole allowing for an optional windsurf sail to be added extending the range of your paddling on windy days. ***Sailing rigs sold separately.**

Each Cascade SUP Includes Crossroads DLX Backpack and Dual Action Hand Pump 25

210 L, 27 lbs. (12,2 kg)

BLACKFOOT ANGLER

Florida, U.S.A.

Named after the legendary Blackfoot River in Montana and available in both single and tandem versions, the Blackfoot iSUP is our fishing specific inflatable standup paddleboard catering to both casual fishing enthusiasts and hardcore anglers.

With six Scotty® mounts within arms-reach, the Blackfoot can be outfitted to tackle any angling mission on your bucket list. D-rings in all the right places make strapping down a cooler or milk crate loaded with your tackle boxes a cinch, and stability isn't a concern given its 36" width can handle loads of up to 450lbs with ease. Industry leading stiffness, which is crucial for efficient paddling and casting, is forged through the use of premium grade drop-stitch combined with our proprietary Powerstrip™ material. As an added bonus, the teak colored EVA top deck is designed with a special micro slitted texture to help with reduced slipping. The Blackfoot Angler iSUP board should be inflated to 14 - 18 psi for optimum performance. As a final touch, we used the US finbox system which allows you to change out or replace the fin by visiting the first paddle store you see. Once the day's catch is packed in the cooler for the ride home, simply deflate, roll up, slide it into its backpack and throw it in the backseat or trunk. This feature-rich board is the ideal paddling platform for the active angler or anyone looking for a great inflatable paddle board that can occasionally act as a fishing platform.

BLACKFOOT 11'0"
 11'0" x 36" x 6"
 (335cm x 91cm x 15cm)
 15cm drop stitch
 230 L, 28 lbs. (12,7 kg)

Includes Crossroads DLX Backpack and Dual Action Hand Pump 25

BLACKFOOT TANDEM ANGLER

Columbia River Gorge | Oregon, U.S.A.

The Blackfoot Tandem iSUP is our fishing specific tandem inflatable standup paddleboard catering to both casual fishing enthusiasts and hardcore anglers. The tandem feature really lets you take your journey to the next level as it can fit two coolers and two anglers simultaneously. The tandem also has three universal mast mounts so that one or two sails can be attached to really make it the ultimate all around board.

With six Scotty® mounts within arms-reach, the Blackfoot can be outfitted to tackle any angling mission on your bucket list. D-rings in all the right places make strapping down a cooler or milk crate loaded with your tackle boxes a cinch, and stability isn't a concern given its 36" width can handle loads of up to 450lbs with ease. Industry leading stiffness, which is crucial for efficient paddling and casting, is forged through the use of premium grade drop-stitch combined with our proprietary Powerstrip™ material. As an added bonus, the teak colored EVA top deck is designed with a special micro slitted texture to help with reduced slipping. The Blackfoot Angler iSUP board should be inflated to 14 - 18 psi for optimum performance. As a final touch, we used the US finbox system which allows you to change out or replace the fin by visiting the first paddle store you see. Once the day's catch is packed in the cooler for the ride home, simply deflate, roll up, slide it into its backpack and throw it in the backseat or trunk. This feature-rich board is the ideal paddling platform for the active angler or anyone looking for a great inflatable paddle board that can occasionally act as a fishing platform.

Includes an integrated mast base pinhole allowing for an optional windsurf sail to be added extending the range of your paddling on windy days. *Sailing rigs sold separately.

EVOLUTION

Florida, U.S.A.

Aquaglide had one mandate in creating the new Evolution™ series, separate these SUP's from the cookie-cutter boards offered by every other company. To do this, we went back to the basics of shaping with Legendary Shaper, Brian Hinde. Hand-shaped, fine-tuned, and attention to detail— this is the last board you'll ever need.

Designed with the intention of a better glide in mind, there are chines located on both the bottom and top of the board. We are excited to get back to the roots, showcasing the experience of paddling and forgoing flashy graphics. This approach rekindles the passion and innovation of the days before cosmetic enhancements surpassed shaping for performance. The 10'6 is the sportiest of the series, creating a great paddling board in flat water but also a very spirited surfer.

EVOLUTION 10'6"
 10'6" x 31" x 4.5"
 (323cm x 78,7cm x 11,75cm)
 188 L, 27 lbs. (12,2 kg)

EVOLUTION 11'6"
 11'6" x 33" x 5.5"
 (354cm x 84cm x 14,3cm)
 264 L, 30 lbs. (13,6 kg)

EVOLUTION 12'6"
 12'6" x 31" x 5.5"
 (384cm x 78,7cm x 14,3cm)
 272 L, 31 lbs. (14,0 kg)

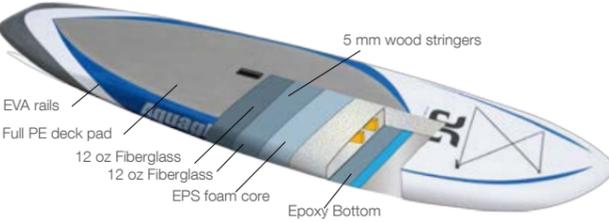

IMPULSE

Aquaglide Impulse™ Series SUP boards offer you an economical way to get started in the world of SUP.

Perfect for learning or sharing with family and friends, the Impulse board is built with a lightweight hand-shaped EPS core reinforced with wood stringers. By doing so, this SUP series can handle almost any paddle session that comes its way. Each board is hand-laminated with fiberglass and epoxy resin so that you can have a board that looks awesome, performs well, and lets you have the best paddling adventures out on the water. The deck is finished with diamond cut PE foam and integrated EVA nose tail & rail bumpers for extra protection that helps with stability and paddling. The bottom is a durable epoxy/fiberglass skin that makes this board a great choice for anyone trying to learn. Includes accessory deck inserts, a molded carry handle, and fin.

IMPULSE 10'0"

An incredibly fun board in a compact package. Offers a surprising amount of stability and flotation, but is still light and easy to handle on and off the car.

10'0" x 33" x 5.25"
 (305cm x 84cm x 14cm)
 28 lbs. (12,7 kg) ~210 L
 Riders <170 lbs. (77 kg)

IMPULSE 11'0"

Our most popular size, this board works extremely well for all but the very largest paddlers. Well-balanced stability, glide and tracking.

11'0" x 33" x 5.25"
 (335cm x 84cm x 15cm)
 31 lbs. (14 kg) ~230 L
 Riders <230 lbs. (105 kg)

WAIMEA

Columbia River Gorge | Oregon, U.S.A.

The Waimea™ stands out as the "jack of all trades" in the soft top SUP category.

Designed for beginner and intermediate paddlers of all sizes, the Waimea's stiffness is forged by wrapping tow wood stringers into a 100% waterproof thermos molded EPS foam core. Two thickset layers of fiberglass and epoxy seal the board tip to tail which is then wrapped in a durable soft top and IXPE (slick skin) bottom. Coupled with a width of 33" inches and a 5.25" thickness, stability and flotation come effortlessly to the Waimea. The customized shape yields superior glide and tracking making the Waimea the go-to board when enjoying time on the water with friends and family. The Waimea package includes: adjustable paddle, surf leash with ankle strap, and soft roof racks.

Waimea Technology

Uses a lightweight 100% waterproof thermo molded EPS foam core, reinforced with wood stringers and the two thickest layers of fiberglass and epoxy seal for stiffness and durability. The board is then wrapped with a durable soft top from tip to tail and the bottom skin is an IXPE slick skin bottom.

WAIMEA 10'

The Waimea 10ft is perfect for paddlers who are learning to get into the sport. This board has a weight capacity of 300 lbs.

10'0" x 33" x 5.25"
 (305cm x 84cm x 14cm)
 300 lbs. (136 kg)
 29 lbs. (13 kg)
 Liters: 210 L

WAIMEA 11'

The Waimea 11ft is for the larger paddler with added stability and more volume. This SUP can hold up 400 lbs.

11'0" x 33" x 5.25"
 (335cm x 84cm x 15cm)
 400 lbs. (181 kg)
 31 lbs. (14 kg)

CROSSROADS DLX

Klickitat River | Washington, U.S.A.

The Crossroads™ DLX Backpack, designed for active hiking to your favorite lake or easy transport on the next flight out.

Regardless of where you are going the Crossroads DLX, made of rugged Change to 600d Polyester/ PVC laminate and heavy-duty components are built to last. It features fully padded construction with extra back pads for breathability. The fully padded shoulder straps are adjustable, with sternum straps on the chest, and waist belt support for even more comfort. The oversized design allows you to carry the board, pump, and most everything you need for a day on the water. The extra compression straps on both sides keep the load centered while the two mesh side pockets and adjustable bungee cords on the back let you store extra gear. As an added bonus the unique zipper pocket allows the straps to hide away when not in use.

KAYAK AND SUP PUMPS

12 V TURBO HIGH PRESSURE PUMP

Extremely powerful 12v electric pump designed for quick inflation of watersports inflatables where no wall outlet is available. Uses heavy duty cable and alligator clips to connect to a boat or car battery. Includes deflate option, and kink-proof hose with attached fittings for Stern, Boston, and Halkey-Roberts type fittings. Makes quick work of inflating Aquaglide kayaks. NOTE: Best for boats with XP floor or other low-pressure watersports equipment.

Specifications:
12 V DC | 12A | 168 W
20.0 psi (1,40 bar)

BELLOWS PUMP

Well-suited to the needs of watersports enthusiasts, this durable, bellows-style foot pump makes quick work of pumping small and medium-sized inflatables to moderate pressure (2.6 psi max). Includes attached fittings for Stern, Boston, and Halkey-Roberts type fittings. NOTE: A good option for boats with XP floor or other low-pressure watersports equipment.

Specifications:
2.6 psi (0,18 bar)
L 11" x W 14" x H 3.5"
(L 28cm x W 36cm x H 9cm)

12 V TURBO PUMP

The powerful 12v Turbo HP Pump has quickly become the go-to for inflatable SUP or HB kayaks. A powerful two-stage motor provides both quick inflation and high-pressure capability up to 20psi (1,4 bar). Connects to battery with heavy duty cable alligator clips and also includes an optional cigarette lighter fitting. Inflate and deflate using a kink-proof hose and attached fittings for Boston, and Halkey-Roberts type valves. Best for inflating Aquaglide HB kayaks or inflatable SUP's.

Specifications:
12 V DC | 20A
2.3 psi (0,158 bar)

DUAL ACTION HAND PUMP 25

Our Double Action SUP Pump is an extremely high-pressure push pump with a high-pressure gauge and an assortment of fittings. The stiff, durable metal shaft and comfortable T-handle makes quick work of inflating your iSup via the heavy duty hose that comes with the pump. This pump is best for inflating inflatable SUP's.

Specifications:
25 psi (1,72 bar)
L 10" x W 5" x H 21"
(L 25cm x W 13cm x H 53cm)

TORNADO PUMP SERIES

- 110 V 2.5 PUMP 110 V AC
600 W | 2.5 psi (0,18 bar)
- 230 V 2.5 PUMP 110 V AC
600 W | 2.5 psi (0,18 bar)

Y HOSE ADAPTOR

Our Y-Hose system is the ultimate solution to cutting down on set up time so that you can spend more time out on the water. The dual hose configuration allows you to inflate both bladders of your inflatable kayak at the same time. A must-have for anyone looking to maximize their time in the water.
