PRODUCT TECH

CONTINUOUS ROCKER

With an even curve from tip to tail, this balanced rocker line is extremely consistent, easy to control, and rolls up the wake for a smooth predictable pop.

PROGRESSIVE ROCKER

Similar to our Continuous Rocker but with a more kicked up tip and tail, resulting in more vertical pop than a Continuous Rocker and more predictability than a 3-Stage.

3-STAGE ROCKER

This rocker line is generally flatter between the bindings but dramatically angles upward towards the tip and tail. This explosive rocker line generates a more aggressive and vertical pop off the wake.

SKIM STYLE

Using smaller fins and a sharper rail, these boards have a loose, skatey feel on the water making it easier to complete surface spins and more skate inspired moves.

SURF STYLE

Using larger fins and a rounder rail, these boards have a surf inspired feel with their flowy turns, powerful hacks, lightning speed, and ability to boost big airs.

CARBON FIBER LAYUP

Aerospace grade carbon fiber fabric that provides a quantum jump in performance over traditional fiberglass with unmatched strength to weight ratios.

CARBON STRIPS

Provides serious strength and responsiveness to the board.

VECTOR NET

Provides a high level of break and buckle resistance while maintaining a natural and lively flex pattern.

SOFT TOP

Soft, padded top surface and rails; minimizes chances of damaging the board, you or anything else.

CRUISER

Smooth and easy ride for all day shredding.

SurfCAP

Unique polymer shell that encapsulates the board for superior durability

BAMBOO VENEER

Adds strength and beauty.

CENTER SPINE

The V shape of the spine disperses water outwards upon impact resulting in softer landings.

VARIABLE BEVELED EDGE

Rolled edges for a smoother, catch-free ride, sharpening at the tip and tail for more bite.

BIOLITE

Eco-friendly material that looks and feels like neoprene, but contains no rubber foam or Volatile Organic Compounds, making it the most environmentally friendly life jacket material on the market.

INFLATABLE SUP

Safe, stable, lightweight, durable, and easy to store. You can't go wrong! Dual action pump included.

V-LOC TECHNOLOGY

Inverted v-shaped channel in the tip and tails designed to cup around rails; making it easier to lock in and control nose and tail presses.

DELTA BASE TECHNOLOGY

"Chevron" shaped channels molded into the tip and tail of the board reduces drag for faster edging and a cleaner release off the wake.

FLEX TECHNOLOGY

Specific layups designed to flex in just the right places, giving you a board that explodes off the water, softens landings, and presses features with ease.

IMPACT BASE

Fully sintered high-density polyethylene base material that holds up to seasons of shredding rails, kickers, ledges, and whatever else you muster up.

FUSION CORE

Two wood stringers sandwiched next to our Feather Core foam. 5 times more durable than traditional foam and enhances the board's snap and pop off the wake.

FEATHER CORE

Feather Core reduces the board's swing weight for more midair control, while simultaneously maintaining its profile up the face of the wake for maximum pop.

WOOD CORE

Paulownia wood core for minimum weight, maximum durability, and an organic feel. Our wood core ensures your board will withstand seasons of shredding.

DURARAIL SIDEWALLS

Impact resistant urethane rail that runs around the entire edge of the board; protecting the core from any hazard you throw its way.

CATCH FREE EDGE

Have fun buttering around the park and never get hung up on your favorite features.

CONCAVE TUNNEL

Narrow tunnel that provides more speed and predictable tracking.

DUAL TUNNEL

Dual tunnel for greater contact on the water.

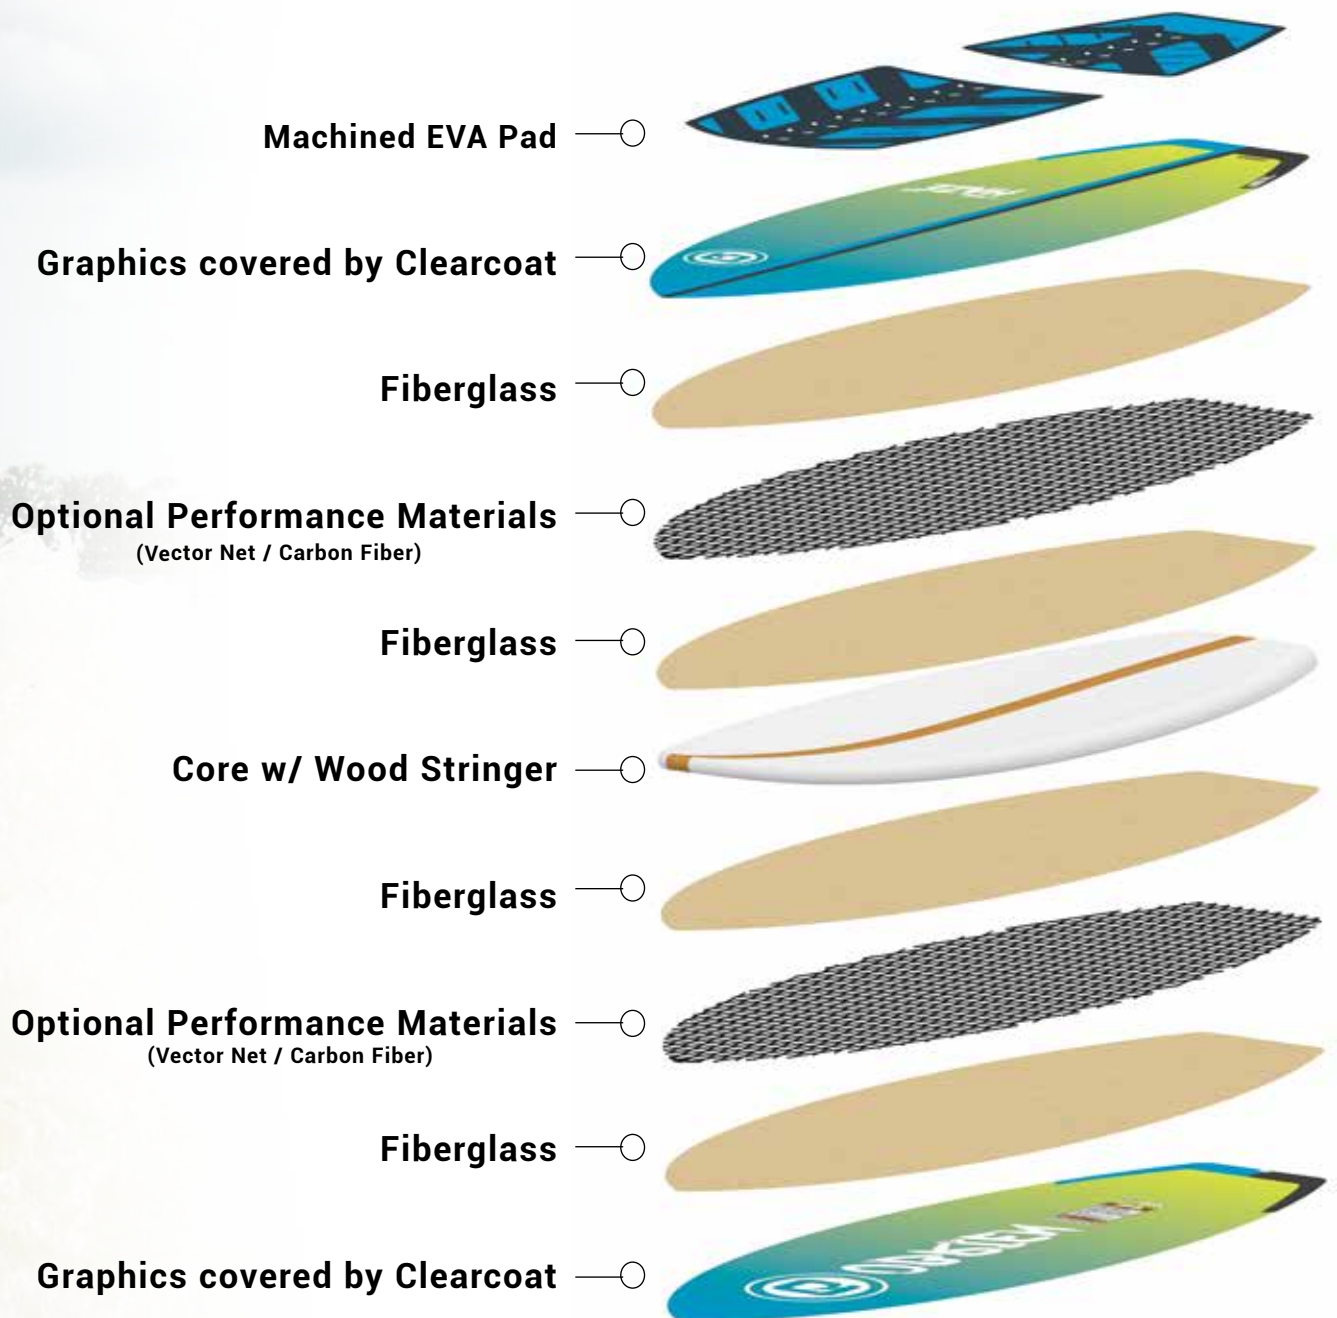

MOLDED IN FINS

Quad molded in fins.

WAKESURFERS

WAKESURFER CONSTRUCTION

ZENITH

PRO MODEL // HUNTER SIMS

SKIM SERIES

..... BEGINNER---1-2-3-4-5-6-7-8-9-10---EXPERIENCED

Precision control, smooth carves, effortless spins, and skate inspired performance - the O'Brien Zenith has arrived. Its fast rockerline and sharp, responsive edges knife through the wave, providing the ultimate skim experience behind the boat. With instantaneous response generated by the 100% carbon fiber layup, the Zenith puts you in the driver's seat to do anything you want on the wave. Surf with confidence on a board shaped to excel while riding forwards or backwards. Maintain control after landing shuvits and 180s and know that the nearly full length EVA deck pad will be there under your feet to help you ride away without any concern of slipping. Finally, take advantage of the Zenith's 3 FCS compatible fin boxes to tweak your fin setup to match the performance characteristics that you demand from your board!

	ZENITH 52"	ZENITH 57"
LENGTH	132cm / 52"	144.7cm / 57"
WIDTH	51.3cm / 20.2"	52.3cm / 20.6"
VOLUME	8.57 Liters	9.57 Liters
WT. RANGE	150 lbs max	120-220 lbs
FINS	(1) Spike 1.0	(1) Spike 1.0
FINS	(2) Trace 1.75	(2) Trace 1.75

RIDER PROFILE---Aggressive surfers looking for the ultimate skim style performance.

CONSTRUCTION---Surf CAP / 100% Carbon fiber – An extremely lightweight foam core wrapped in a durable polymer shell. Super light and extra strong, this shell makes the board resistant to dings to keep you shredding and eliminate the stressing.

FX V3

.....SURF SERIES.....

.....BEGINNER---1-2-3-4-5-6-7-8-9-10---EXPERIENCED.....

Introduced in 2018, the FX Series burst onto the wakesurf scene to incredible acclaim – quickly becoming a favorite amongst our riders as well as surfers worldwide. Now on our third rendition, the FX V3 is, by all accounts, better than ever. For 2020, we've rounded out the rails to provide more of a traditional surf feel that is more consistent and predictable, while still maintaining its high maneuverability and effortless drive down the wave. The FX V3 still features a stepped tail and subtle concave base to speed up the board and allow it to smoothly transition from rail to rail. Its wide, squared off nose minimizes pearling (aka nose dives) and makes it easier to ride out of air reverses and shuvs. With its 5-fin option, customize the FX V3 to perform exactly how you need it.

	FX-V3 54"	FX-V3 59"
LENGTH	137.16cm / 54"	149.86cm / 59"
WIDTH	50.8cm / 20"	54cm / 21.25"
VOLUME	15.75 Liters	17.55 Liters

FINS	(2) 2 Face 2.7	(2) 2 Face 3.6
FINS	(2) TAC 1.3	(2) TAC 1.3

RIDER PROFILE---Aggressive surfers looking for a fast, modern surf style shape for boosting airs.

CONSTRUCTION--- Hand laid epoxy with Vector Net and Carbon strips

HAZE V3

.....SURF SERIES.....

.....BEGINNER---1-2-3-4-5-6-7-8-9-10---EXPERIENCED.....

The Haze V3 generates an incredible amount of push and speed on any wave - making it the perfect board for effortless, smooth style. Whether you are just getting into riding or are ripping airs, this stable platform will give you the confidence to push your surfing further. With all the forward drive you'll generate from its thruster fin setup, the Haze V3 will have you racing down the line and taking to the skies with ease.

	HAZE-V3 52"	HAZE-V3 57"
LENGTH	132.08cm / 52"	144.78cm / 57"
WIDTH	50.8cm / 21"	54.6cm / 21.5"
VOLUME	16.12 Liters	17.15 Liters

FINS	((2) 2 Face 2.7	(2) 2 Face 3.6
FINS	(1) TAC 1.3	(1) TAC 1.3

RIDER PROFILE---Surfers desiring a wide, floaty board to cruise in style... even on smaller waves.

CONSTRUCTION---Hand laid epoxy with Vector Net

FORTE

SKIM SERIES

.....BEGINNER---1-2-3-4-5-6-**7-8-9-10**---EXPERIENCED.....

Originally released in 2019, the Forte was designed to push the envelope of skim style surfing with more width in the tip and tail for stability and drive and a thin profile for a quick, carvy feel on the face of the wave. For 2020, it's back and better than ever. Not only is it sporting a limited edition graphic celebrating O'Brien's Pacific Northwest heritage, penned by the talented crew at The Great PNW, but we've also modified the fin setup; completely changing the dynamic of how you can ride this board. Instead of only having a single fin option, the Forte now features 3 FCS compatible fin boxes so you can tweak your fin settings to meet your desired performance characteristics. Go with the small single fin for that true skim feel and enjoy effortless spins and shuvs or change it up by throwing all the fins on for more of a surf feel with greater hold and powerful turns. Either way you choose to ride it, the Forte delivers endless fun on the wave!

	FORTE 51"	FORTE 56"
LENGTH	129.5cm / 51"	142.2cm / 56"
WIDTH	51.6cm / 20.3"	52.3cm / 20.6"
VOLUME	11.14 Liters	12.42 Liters
WT. RANGE	Up to 170 lbs	160-240 lbs
FINS	(1) Spike 1.0	(1) Spike 1.0
FINS	(2) Lambo 1.7	(2) Lambo 1.7

RIDER PROFILE---Skim style surfers desiring more float and forward drive out of their board.

CONSTRUCTION---Hand laid epoxy

ROYALE

SKIM SERIES

.....BEGINNER---**1-2-3-4-5-6-7-8-9-10**---EXPERIENCED.....

Whether you want a mellow cruise behind the boat – or you are looking to get after it, the Royale delivers! At 63" & over 19.6 liters of volume, the Royale is big enough for almost anyone – but also responsive enough for serious shredding. Ideal for those with a smaller wake or bigger riders in need of more volume, the Royale provides the perfect blend of a forgiving ride with a surprising level of agility and freedom on the wave. Constructed with our new Surf CAP construction, the Royale is light for its size and more durable than you would expect..

	ROYALE 63"
LENGTH	160cm / 63"
WIDTH	54.6cm / 21.5"
VOLUME	19.63 Liters
WT. RANGE	160+ lbs
FIN	(1) Merc 3.0

RIDER PROFILE---Beginner to advanced surfers in search of a larger board

CONSTRUCTION--- Surf CAP – An extremely lightweight foam core wrapped in a durable polymer shell. Super light and extra strong, this shell makes the board resistant to dings to keep you shredding and eliminate the stressing.

MICROWAVE

NEW SWITCH

SKIM SERIES

SKIM SERIES

.....BEGINNER---1-2-3-4-5-6-7-8-9-10---EXPERIENCED.....

Built 100% with younger/smaller riders in mind, the Microwave is the perfect board to not only build the rider's confidence and get them comfortable wakesurfing, but it also gives them everything they need to progress their surfing. Featuring a traditional skim style shape with some added width in the tail, the Microwave generates plenty of speed and forward drive making it easy for the rider to stay on the wave. Our color-coded pad simplifies learning - shift your body forward over the green portion of the pad to go faster and bring it back to the red portion to slow down.

	MICROWAVE 45"
LENGTH	114.3cm / 45"
WIDTH	47cm / 18.5"
VOLUME	8.37 Liters
WT. RANGE	Up to 120 lbs
FINS	(1) Spike 1.0
FINS	(2) TAC 1.3

RIDER PROFILE---Small surfers rejoice with a board they can finally control and make the most out of their surfing.

CONSTRUCTION---Hand laid epoxy

.....BEGINNER---1-2-3-4-5-6-7-8-9-10---EXPERIENCED.....

Smooth and forgiving yet built for performance, the Switch enhances the skim style surf experience. It carves with ease, breaks free for spins and is designed to add consistency and progression to all your skate and skim inspired moves. The fiberglass and PU construction softens the overall ride and makes the board more forgiving for beginner and intermediate surfers. At the same time, with its sharp rails, fast rockerline, and "wider than your traditional pintail" shape, the Switch carries speed, locks into the wave, and delivers tons of control on the water. The board's shape is designed to perform forwards or backwards so you can comfortably ride away on shuvits and 180s while taking advantage of the nearly full length machined EVA pad.

	SWITCH 52"	SWITCH 57"
LENGTH	132cm / 52"	144.7cm / 57"

CONSTRUCTION---Surf CAP

NEW **SESSION**

SKIM SERIES

BEGINNER---1-2-3-4-5-6-7-8-9-10---EXPERIENCED

Get the most out of each surf sesh and rip the wave apart on the O'Brien Session. Pairing its thin, light design, sharp rails and fast rockerline, the Session's true skim shape works for every level of rider and keeps the fun alive behind the boat. With thinner rails that slice through and grip the wave, the Session quickly generates speed while providing the freedom to break free for surface spins and skim style maneuvers on command. Its oversized pad with built in arch support and kicktail delivers exceptional control over the board and gives you the ability to place your feet wherever you'd like – perfect for ollies, shuvs or anything else where your feet tend to move around. So keep the stoke high and session your endless wave all day long!

	SESSION 52"
LENGTH	132.8cm / 52"
WIDTH	52.8cm / 20.8"
VOLUME	9.80 Liters
WT. RANGE	Up to 200 lbs
FINS	(1) PAC 1.1

RIDER PROFILE---Anyone looking for a skim style board that prioritizes fun on the water.

CONSTRUCTION---TPU skinned skimboard

SPACE DUST

SKIM SERIES

..... BEGINNER---1-2-3-4-5-6-7-8-9-10---EXPERIENCED.....

With 40,000 tons of cosmic dust reaching Earth's surface every year, it's reasonable to believe that parts of the cosmos are in or on everything around us. In honor of that, as well as its otherworldly ride characteristics, we give you the all new Space Dust wakesurfer. A skimmer in the truest sense of the word, the Space Dust is thin, light, and insanely fun behind the boat. Our riders are having a blast as they effortlessly spin and slide this board on the wave - some even choose to ride it finless to enhance their board control. To top it off, this board is extremely affordable – making it an easy choice to add to your collection.

	SPACE DUST 52"
LENGTH	132.08cm / 52"
WIDTH	52.83cm / 20.8"
VOLUME	9.8 Liters
WT. RANGE	Up to 200 lbs
FINS	(1) PAC 1.1

RIDER PROFILE---Perfect entry level board for surfers getting into skim style riding.
CONSTRUCTION---Skim Construction

PIKE

CRUISER SERIES

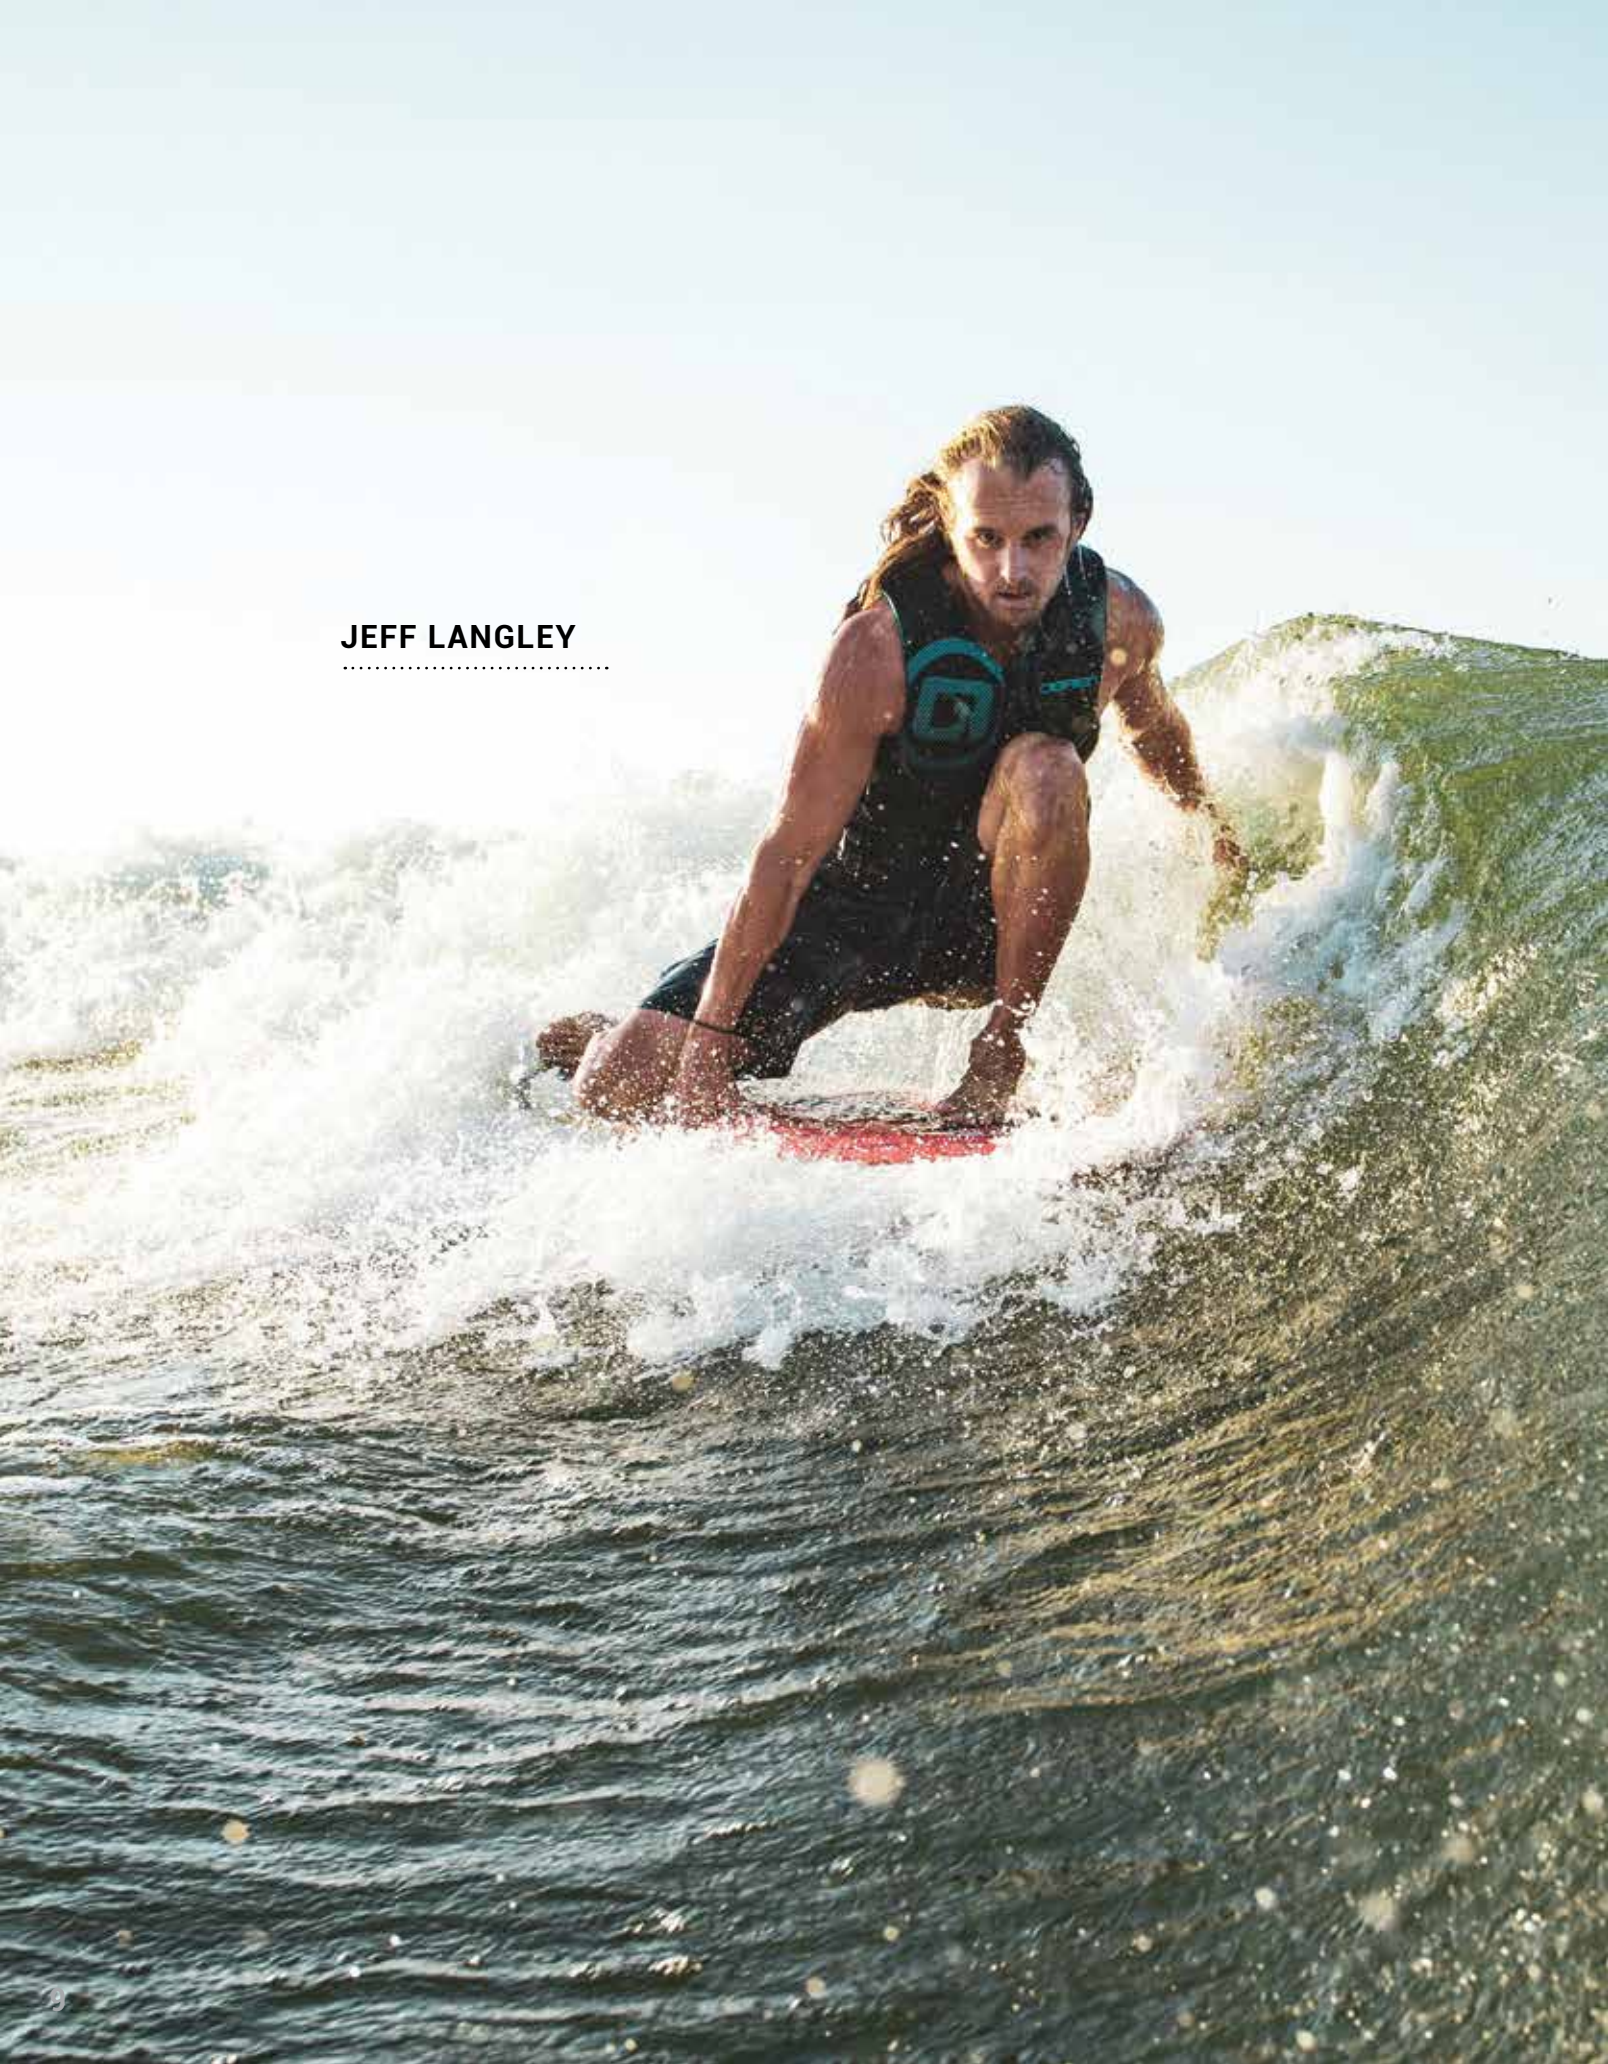

..... BEGINNER---1-2-3-4-5-6-7-8-9-10---EXPERIENCED.....

If a performance soft top board exists, it is the Pike. The Pike's unique construction starts with an ultralight stringer core, wrapped in fiberglass – then topped with a foam deck and a slick bottom. This gives the rider a soft surface to ride on that won't ding the boat, with performance levels nearing that of some epoxy boards.

	PIKE 58"
LENGTH	147.3cm / 58"
WIDTH	53.3cm / 21"
VOLUME	27.7 Liters
WT. RANGE	One Size Fits All
FINS	(3) MERC 3.0

RIDER PROFILE---Perfect for new surfers, yet board provides soft top fun for everyone.
CONSTRUCTION---Soft Top

PARK BOAT

More flexible park boards are easier to press.

FLEXIBLE 1 <---> 10 STIFF

Stiffer park boards provide a more solid platform on rails & more spring back off kickers.

More flexible boat boards tend to land softer and have a slightly slower release off the wake.

FLEXIBLE 1 <---> 10 STIFF

Stiffer boat boards tend to snap off the wake with no energy loss as well as release more quickly.

THE FIX

PARK SERIES

PRO MODEL // MAX VAN HELVOORT

.....FLEXIBLE---1-2-3-4-5-6-7-8-9-10---STIFF.....

Back for its second year, The Fix continues to push the "Bigger is Better" trend in park boards. It's a powerhouse in the park and for 2020 the thickness profile of the board has been tweaked to improve the overall flex parameters and make it even more fun than before. Its fast, yet relaxed feel on the water minimizes fatigue and helps you perform at your best all day long. Feel free to crank into kickers and push the boundaries of the sport like Max or get super technical on rails by using that extra length and flex to take your presses even further... as well as soften your landings. With it's V-Loc tip and tail, slightly concave belly and relatively "skinny stance," The Fix will take your rail game to new levels; making it easy to lock into presses, control your position on rails and keep your style on point. The revolution in park riding is here, so come get your Fix.

INDIE

PARK SERIES

NARROWER STANCE FOR 2020!

.....FLEXIBLE---1-2-**3**-4-5-6-7-8-9-10---STIFF.....

Featuring a park-specific design built around a 100% hardwood core, the Indie delivers the optimum park riding experience with tons of flex on rails and a snappy pop off kickers. With its center tunnel running the entire length of the board, the Indie self-centers and locks onto rails with ease. Not only does this reduce friction on the rails, but it assists in tracking as well. To give this finless ride a little more bite, the Indie incorporates a series of stepped channels running along the rails, adding the perfect amount of traction on the water without sacrificing performance on obstacles.

STILETTO

PARK SERIES

FLEXIBLE---1-2-3-4-5-6-7-8-9-10---STIFF

With it's high performance freeride feel, the Stiletto will take your riding to new levels. The smooth, transitional flex pattern of the Fusion Core makes the board firm enough between your feet for an explosive pop off kickers, yet soft and flexy at the tip and tail for effortless pressing and impact dampening. Its concave base keeps the board riding high on the water; reducing drag therefore minimizing fatigue, so you can keep charging all day. Armed with O'Brien's signature Impact Base and Durarail, the Stiletto is capable of handling any park feature in its path. You'll ollie higher than ever before, land tech tricks you've only dreamed of, and only take a break when the cable operator cuts you off.

S.O.B DZ

PARK SERIES

PRO MODEL // DARY ZNEBEL

FLEXIBLE---1-2-3-4-5-6-7-8-9-10---STIFF

Last year, we approached Sean about expanding the S.O.B size range and he insisted that Dary Znebel take the lead on this project. For the past several years, Dary's been turning heads with his unique approach to park riding and with the S.O.B being his board of choice we knew he'd be the perfect guy to provide additional insight. These new sizes keep the same S.O.B feel that we all know and love, while improving the overall park performance. For enhanced durability, this board features a thinned out all wood core and we modified the top deck contouring to allot for the core change and create a more progressive tip/tail flex. To top it off, we've implemented a lifted, Catch Free edge so you can have fun buttering around the park and never get hung up on your favorite features. We've managed to tackle Dary's wishlist for the ultimate park board and we know that everyone is going to love it. Oh yeah, next time you see Dary congratulate him on his first Pro Model board. He's earned it.

S.O.B

PARK SERIES

PRO MODEL // SEAN O'BRIEN

.....FLEXIBLE---1-2-3-4-5-6-7-8-9-10---STIFF.....

The S.O.B may be the most versatile board on the market. Initially designed to appeal to the needs of the hard-charging cable crowd, the S.O.B has it all; Impact Base, Durarail sidewalls, Fusion Core, minimal channeling and a concave hull. Its refined flex pattern feels snappy under your feet allowing for huge ollies, explosive pop off kickers, effortless pressing and smooth landings. What's even more impressive is that this "park board" excels behind the boat as well. Sean swears that it's the best board he has ever ridden behind the boat and based on how he's riding and how much fun he's been having on the water this just might be your go to "boat board" as well.

BOAT BOARDS

CORY TEUNISSEN

Cory Teunissen

EXCLUSIVE

BOAT SERIES

PRO MODEL // CORY TEUNISSEN

FLEXIBLE---1-2-3-4-5-6-7-8-9-10---STIFF

Released in 2018, Cory Teunissen's pro model board, the Exclusive, took the wakeboard world by storm. Cory describes this board as a CTP on steroids. It's faster, more explosive off the wake, and, thanks to a full-length center spine, lands softer than any board he's ever ridden. The Exclusive kept the CTP's rocker line, thin profile, variable beveled edge, and full step-down rail to maintain similar ride characteristics, but everything else is different. The board is wider, the tip and tail have a slightly different shape, but the biggest difference is the completely redesigned base contouring. Not only does the board have the center spine, but it also utilizes an intricate channel system combined with inset fins for greater efficiency and hold while edging, simultaneously making the board feel loose and free while riding flat. If you've been keeping tabs on Cory's riding over the past year, you know that he somehow manages to keep getting better and better. He'll be the first to tell you that it's a result of the board he's riding.

PRO MODEL // TARAH MIKACICH

FLEXIBLE---1-2-3-4-5-6-7-8-9-10---STIFF

Tarah Mikacich's incessant desire for fun on the water has met its match with the fun-filled ride of the Spark. With its thinned out Feather Core, 3-Stage Rocker and full step-down rail, the Spark sits a little deeper in the water; delivering effortless edge control and a predictable, punchy pop off the wake that will bring a smile to anyone's face. With a triple concave hull and a Delta Base, the Spark has everything a pro rider wants, but is also the perfect choice for anyone looking for a stable platform to progress their riding.

NEW SHOTA VALHALLA

BOAT SERIES

LIMITED PRO EDITION // SHOTA TEZUKA

.....FLEXIBLE---1-2-3-4-5-6-7-8-9-10---STIFF.....

Like several of our athletes, Shota chose the Valhalla as his go-to board due to its reliable shape and consistent pop off the wake. With the majority of his efforts focused on pushing what's possible on a wakeboard and competing at the highest level, we decided it would be great to supercharge a Valhalla and give him that extra boost he needs; hence the limited edition Shota Valhalla. We modified the construction of the standard Valhalla to include a carbon fiber Vector Net running tip to tail. This strengthened the board and maximized its torsional rigidity. From a performance standpoint, Shota swears that the board feels faster and lighter on the water, more explosive off the wake and that the landings feel incredibly solid when boosting out into the flats. It's going to be exciting to see what Shota puts together on his new deck. With the way he rides, we have no doubt that we are going to have to keep picking our jaws up off the floor this year.

D.O.C VALHALLA

BOAT SERIES

LIMITED PRO EDITION // DAVID O'CAOIMH

.....FLEXIBLE---1-2-3-4-5-6-7-8-9-10---STIFF.....

Born from the global outcry of David O'Caoimh's passionate YouTube followers (now over 45k), the D.O.C Valhalla features David's limited edition signature graphic on the Valhalla; the board he's been swearing by for years. Always focused on the grassroots and growing the sport, David chose the Valhalla because of its easy, forgiving ride and predictable nature. He truly feels it is a board that is suitable for everyone and stands behind it 100%. It is the perfect board for beginners and, as you can see, David is ripping and constantly pushing his riding further and further on this board.

VALHALLA

BOAT SERIES

FLEXIBLE---1-2-3-4-5-6-7-8-9-10---STIFF-----

Everyone has been loving the modifications made to the Valhalla. Its new contouring and balanced thickness profile have taken an easy to ride board and made it even more forgiving to benefit beginner and intermediate riders. With that being said, some of the best riders in the world, Shota Tezuka and David O'Caoimh, rave about the Valhalla and have made it their go-to board. Its Feather Core, new thickness profile, and molded fins give the Valhalla tons of control from edge to edge; making it an ultra reliable shape. The new contouring, along with its Progressive Rocker and Delta Base, generates a smooth, controlled pop off the wake; allowing the rider to maintain control in the air and build confidence in their riding.

HOOKY

BOAT SERIES

..... FLEXIBLE---1-2-3-4-5-6-7-8-9-10---STIFF.....

Behind the boat and in the park, there is no better board for young rippers than the Hooky. Designed specifically to enhance the performance of smaller/lighter riders, the Hooky uses its forgiving shape, reduced width and Feather Core for superior maneuverability and easy edging. Its Progressive Rocker gives the rider a nice kick off the wake giving them plenty of time to add more moves to their bag of tricks. With its Dual Hybrid Rail Construction and DuraRail tip and tail, the Hooky can also navigate your local cable park with ease. These features make the board extremely durable and capable of handling all of the abuse these riders put their equipment through.

NEW

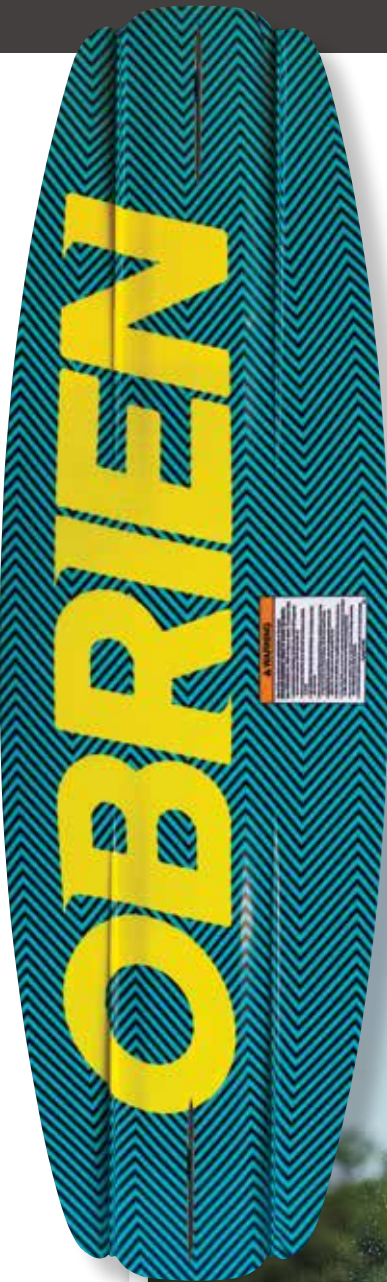

CLUTCH

BOAT SERIES

.....FLEXIBLE---1-2-3-4-5-6-7-8-9-10---STIFF.....

So good we had to bring it back! Cobe may have designed the Clutch years ago, but this timeless shape deserves a special place in our line. It has everything a pro rider needs (pay attention to what Mizuki is ripping on), but is truly ideal for beginner to intermediate riders looking for a predictable 3-stage board with explosive pop off the wake. Designed with 4 molded fins as well as tracking channels, the Clutch provides a smooth ride with plenty of hold on the water. The variable beveled edge keeps the midsection of the board catch-free and tapers towards the tip and tail for added bite when edging. This easy to ride board is perfect for building fundamentals, improving confidence and enhancing progression.

PIXEL

BOAT SERIES

FLEXIBLE---1-2-3-4-5-6-7-8-9-10---STIFF

The Pixel is the perfect board for beginner and intermediate riders looking to progress their boat riding. This forgiving board rides a little higher in the water, reducing drag and making it easier for the rider to take longer sets. This extra time on the water makes all the difference in the world when it comes to progression, especially in the early stages of riding. The Pixel's long molded fins assist the board in transitioning from rail to rail and help it lock onto its edge when cutting into the wake. At that point, the Progressive Rocker and Delta Base work together to provide a consistently smooth and predictable pop off the wake; giving the rider plenty of control in the air.

SYSTEM

BOAT SERIES

..... FLEXIBLE --- 1-2-3-4-5-6-7-8-9-10 --- STIFF

The System offers performance at an affordable price. Its Continuous Rocker keeps the board stable on the water and predictable off the wake. The System also uses dual channels at the tip and tail and center mounted Attack Fins to ensure predictable tracking and easy edging. To top it off, its extra buoyant foam core makes getting up and out of the water as effortless as can be. These features make the System a great first board for anyone just getting into the sport or the perfect board to keep on your boat for any friends who want to try their hand at wakeboarding.

LASTED CONSTRUCTION

- Shaped to match the contours of your foot
- Allows for left and right specific bindings

POWER ARCH

- Provides more arch support during normal riding conditions.
- Minimizes the amount your foot rolls inward on hard landings, reducing stress on your knees.

OFF AXIS ROTATION SYSTEM

- Keep your bindings centered on the board as you adjust your stance angle
- Maintains equal heel and toe leverage

LUX CHASSIS

- Our lightest and most rigid chassis
- Maximum comfort and response
- No heel or toe lift

CANTED 2.5°

- Chassis is angled inwards by 2.5° for a more natural alignment and leg position while riding
- More support to the outside of the foot provides improved control
- Reduces stress and fatigue on the knees and ankles for a more comfortable, longer ride

*Please note: Closed toe bindings fit by width, thickness and length. Open toe bindings fit by foot width and thickness, but not length. Therefore this chart should only be used as a general guide. We recommend that you try on before purchasing. Bindings will soften for a looser fit with use.

PADDLE BOARDS

SUP CONSTRUCTION

- Bamboo Shell- Premium construction built for lightweight performance
- Epoxy-Traditional construction that is a great balance of performance and weight
- ABS Shell- Insanely durable construction
- Soft top- Durable, lightweight and padded on the top and sides
- Inflatable Drop Stitch- Lightweight, easy to store and transport, yet rigid and strong

PADDLE TECH

Shaft construction

- Carbon - Ultimate in lightweight performance
- Aluminum - Light and highly durable
- 2-piece design - Lighter weight, more performance oriented, and easy to adjust paddle length
- 3-piece design - Easily adjustable paddle length and simple disassembly for transport and storage
- Internal grooved shaft – Eliminates twisting of shaft components so your handle never rotates and the paddle remains straight
- Premium adjustment clamp – Effortless adjustability and a two bolt design for strong clamping power

BLADE CONSTRUCTION

- Angled and contoured bamboo blade – Durable, performance-oriented blade designed for smooth, efficient strokes
- Angled and contoured plastic blade - Highly durable blade designed for controlled strokes
- 7" blade width – Allows the blade to travel quickly through the water and minimizes stress on the shoulders
- 8" blade width – Allows for more powerful strokes

BOARD	LENGTH	VOL.	Maximum recommended rider weight for optimum performance and stability*
Burnside	11'2"	206	265 lbs
Mist	10'6"	182	235 lbs
Camano	11'6"	241	310 lbs
Camano	10'6"	205	265 lbs
Rio	11'6"	292	380 lbs
Hilo	10'6"	269	350 lbs
Kona	10'6"	271	350 lbs
MV Deluxe	11'6"	241	310 lbs
MV Deluxe	10'6"	205	265 lbs
MV Resort	11'6"	205	265 lbs
LandShark	10'6"	269	350 lbs
Lotus	10'6"	255	330 lbs
Aurora	11'	198	255 lbs
Jr. Aurora	7'6"	79	100 lbs

* While experienced paddlers can deviate from this chart, too much weight on a board will cause it to sink too far in the water, making it both unstable and significantly harder to paddle.

ment range

4 PC. Aluminum Paddle with two 7" Plastic Blade
Dual purpose for kayak and SUP

SUP LIFE JACKET

- ▶ U.S. Coast Guard/Transport Canada Approved
- ▶ Multiple adjustable straps for customized fit
- ▶ Two zippered pockets for storage
- ▶ Available in blue or green
- ▶ Small / Medium (32" - 40" Chest)
- ▶ Large / XL (40" - 48" Chest)
- ▶ 2XL / 3XL (48" - 56" Chest)

ARSENAL SUP LIFE JACKET

- ▶ U.S. Coast Guard/Transport Canada Approved
- ▶ Short vest with large armholes for added mobility
- ▶ Single zippered pocket
- ▶ X-Small / Small (28" - 36" Chest)
- ▶ Medium / Large (36" - 44" Chest)
- ▶ XL / XXL (44" - 56" Chest)

M-16 INFLATABLE BELT

- ▶ Pull the cord to inflate with the CO2 cartridge
- ▶ Minimalist design.
- ▶ Universal (30" - 52 Chest)

ISUP SINGLE-ACTION HAND PUMP

- ▶ Inflates up to 18 psi

SUP ANCHOR

Lightweight 1.5 lb anchor & 15 foot rope keeps your paddleboard or float from drifting while you relax! The Anchor folds up & stores in the included bag.

SUP INFLATABLE BELT PACK

- ▶ U.S. Coast Guard Approved
- ▶ Pull the cord to inflate with the CO2 cartridge
- ▶ Single zippered pocket
- ▶ Universal (30" - 52" Chest)

ISUP DUAL-ACTION HAND PUMP

Inflate your board faster and easier with continuous pumping cycles both in down and upward action. Inflates up to 18 psi.

10' SUP LEASH

- ▶ Available in Green or Black
- ▶ 10' Ankle Leash
- ▶ 8mm PU cord
- ▶ Double Swivel
- ▶ Neoprene strap
- ▶ Quick Release

ST 12V ISUP INFLATOR

- ▶ Powerful, high-volume AC 12V/DC
- ▶ Adjustable from 1 to 20 psi
- ▶ Quickly, easily inflates/deflates SUP's and Drop-Stitch mats
- ▶ Kink-proof hose
- ▶ Digital PSI gauge
- ▶ Stops automatically when inflated to setting

SUP TIE DOWNS

- ▶ 12' long, perfect for securing your SUP's to your vehicle

ISUP ELECTRIC PUMP

- ▶ Pump will stop automatically when the SUP is fully inflated to selected psi setting
- ▶ Inflate SUP's and Drop-Stitch mats
- ▶ Adjustable from 1 to 20 psi
- ▶ Analog psi gauge
- ▶ Alligator clips included for connecting to battery

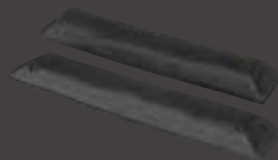

KANULOCK SUP TIE DOWNS

- ▶ Easy to lock buckles
- ▶ Cannot be cut by knife
- ▶ Less wind noise
- ▶ Easy to lock buckles secure your SUP to the rack on your vehicle

ISUP ROLLER CASE

Transport your iSUP protected in this heavy duty Roller bag. Full length zipper makes for easy entry and inside straps hold the iSUP and paddle right where you want it. Large pocket to hold your pump.

SUP PAD SYSTEM

- ▶ Protect your board and your vehicle
- ▶ Durable, polyester-wrapped foam pads easily secure to roof racks with 5.5" - 8" circumference
- ▶ Hold in place with easy-to-use hook-and-loop closure tabs
- ▶ Each pack includes two pads

RAIL TAPE

Adhere to the sides of your SUP with our clear rail tape to protect the rails of your new SUP.

LASTED CONSTRUCTION

Shaped to the contours of a foot to make a left and right specific binding.

DUAL STRETCH ZONE

2 release zones allow the heel of the skier to lift past the ankle "pressure" zone, yet still provide extreme comfort, support and performance.

LOW PRO CHASSIS

In any type of dynamic motion, a low center of gravity is always the most important factor; allowing for more control in the turn, more leverage in the pull, a faster reaction time and highly sensitive feedback.

14 DEGREES OF ROTATION

Allows for small or large adjustment of the boot canting position. This allows the user to dial in the ski's characteristics with a whole new level of precision!

*Please note: Ski bindings fit by foot width and thickness, but not length. Therefore this chart should only be used as a general guide. We recommend that you try on before purchasing. Bindings will soften for a looser fit with use.

BINDINGS

DIVISION

PRO SERIES

Built on an aluminum plate, the Division features a front lace system for ease of entry and exit. The low-profile design gets your center gravity as close as possible to the water for maximum performance. Built-in lateral stiffeners and the last-style footwear construction make this one of the best fitting boots on the market. Dual stretch zones make it extremely comfortable while providing for easy release. The open toe design makes it a more forgiving shoe size, so it's easier to share between similar-sized friends and family. 14° of rotation lets you tweak the binding settings to your heart's content.

AVAILABLE SIZES: 5-7 / 7-10 / 10-12 / 12-14

TITAN

PERFORMANCE SERIES

Using the same chassis as the Division Binding, the Titan offers a broader size range at a lower price point. The Plastic (Nylon 6) plate is both lightweight and durable, and the integrated liner/heel makes it a snap to get on and off.

AVAILABLE SIZES: XS-SM 4-7 / MD-LG 8-12 / XL-XXL 10-14

NEW

Z-9

SPORT SERIES

If you need a binding that your whole family can share, but you still want stellar performance, look no further. The Z-9 features a lightweight chassis/plate combination to get your foot as close to the ski as possible. The lower cut to the binding makes for an easier release and gives great flexibility. The front lace system makes this very easy to get into, and a cinch to snug up. An EVA footbed makes it comfy and secure. And a wide range of size adjustment makes this the perfect binding for family use. The Z-9 binding, while adjustable, is available in three sizes. XS (up to size 7), Standard (men's sizes 7-11), and XXL (men's sizes 12+).

AVAILABLE SIZES:

Junior - 2-7 (can only be used on Jr ski)

XS/S - 4-7 / Standard - 7-11 / XXL - 12+

DIVISION RTP

PRO SERIES

The Division RTP offers built-in lateral stiffeners and lasted-style footwear construction. Its more specific sizing offers higher performance and more precise control.

AVAILABLE SIZES: 5-7 / 7-10 / 10-12 / 12-14

LACE RTP

PERFORMANCE SERIES

The Lace RTP offers built-in lateral stiffeners and lasted-style footwear construction.

PERFORMER

PERFORMANCE SERIES

68"

The Performers are O'Brien's signature pair of combo skis. Not only have they taught thousands the joy of waterskiing, they also make the transition from combos to slalom as fun and easy as can be. If you have slalom and combo skiers in the same family, or you want to spend a lot of time on a slalom ski but still need a pair of combos to share with others, these are the skis for you. Built to be easy to get up on, but with features usually reserved for higher performance slalom skis, the Performers are the best of both worlds. The Performers feature the lace-adjustable X-8 bindings, which securely hold almost any size adult foot in padded comfort without sacrificing performance. If you want the best combos, go with the O'Brien Performers!

CELEBRITY

PERFORMANCE SERIES

68"

Our best-selling adult skis, the O'Brien Celebrities, make almost anyone, from newbies to experts, feel right at home on the water! With the easy adjustability and great fit of the X-7 bindings, you'll be skiing in no time. The heightened performance from the ski's side-cut bevel paired with the smooth, predictable control from its dual tunnel make the Celebrities the most versatile pair of combo skis in our line. Lots of surface area provides plenty of lift for exceptionally easy deep-water starts and a flatter, faster rocker line minimizes drag as well as fatigue, so you can enjoy your skiing all day long. Available in Red or Blue

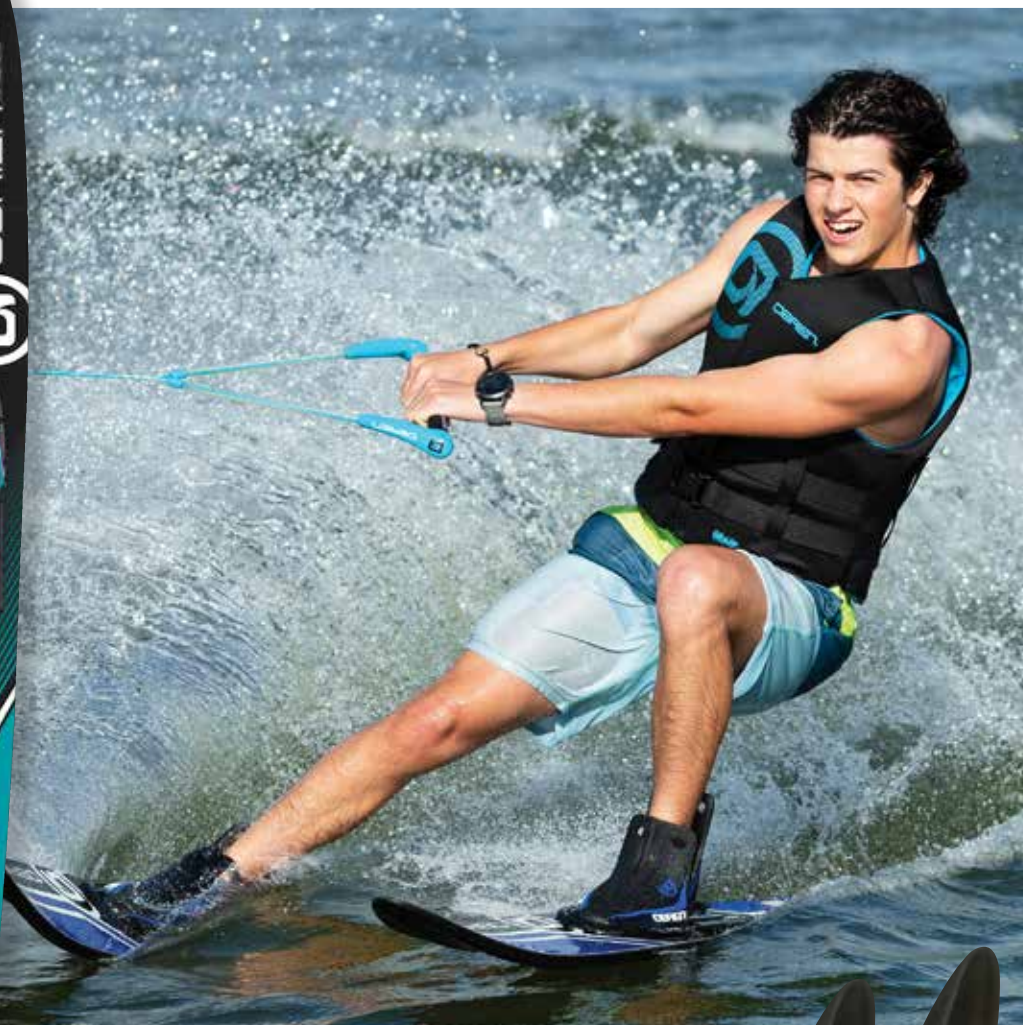

LENGTH	68" / 172cm

FOOT SIZE	MENS 4.5 - 13

CELEBRITY 64

PERFORMANCE SERIES

64"

The Celebrity 64's have all the great features of our best-selling 68 inch Celebrities in a compact, more manageable size for lighter-weight skiers. Just 4 inches shorter and slightly narrower than the 68 inch Celebrities, they are the perfect pair for lighter skiers who want increased maneuverability, but with the ease-of-use the Celebrities have always been famous for. In particular, the size of the Celebrity 64's work great for women and teenage kids. A flatter, faster, rocker line reduces drag, allowing for easier, less fatiguing, skiing.

LENGTH	64" / 162cm
FIN	Nylon
BINDINGS	Jr. X-7 Adj. Bindings
FOOT SIZE	Jr. 2-7

DUAL TUNNEL DESIGN

O'Brien's exclusive dual tunnel is designed to be the smoothest ski on the water. Featuring a pronounced V entry at the tips, these skis effortlessly slice through rough water and deliver a smooth, stable ride that everyone can enjoy.

COMBOS

JR. CELEBRITY

PERFORMANCE SERIES

58"

With all the attributes that make the adult Celebrity Combos a best seller, the 58" Jr. Celebrities are the perfect size for preteen to early teenage skiers and lighter adults up to about 120 lbs. These shorter, lighter combo skis allow for better maneuverability and more fun on the water. They are the perfect way to introduce youngsters to the joys of waterskiing. Paired with our Jr. X-7 sliding adjustable binding, the skier's confidence will be soaring as they pop out of the water and start cruising around. In order to make deep water starts easier for beginners, the Jr. Celebrities are packaged with a removable stabilizer/trainer bar to help hold the skis in place. Once comfortable with getting up and riding around, the bar can easily be removed to allow the skier to start carving and really get a feel for the ski. The Jr Celebrities also features a padded rear toe plate for when the skier wants to push their abilities and try their hand a slalom skiing.

REACTOR

SPORT SERIES

67"

The O'Brien Reactor Combos may be our value-priced skis, but they are a true classic! Our most traditional pair of skis, the Reactors are a bit narrower overall, making them more maneuverable and responsive on the water. They are easy to get up on and with our dual tunnel design they deliver smooth, stable performance. Pinch-slide adjustable 700 series bindings make entry and exit a breeze. They may be inexpensive, but they're still O'Brien quality!

LENGTH	67" / 170cm
FIN	Nylon
BINDINGS	700 Adj.
FOOT SIZE	MENS 4.5 - 13

VORTEX

WIDE-BODY SERIES

65.5"

The O'Brien Vortex Combos are our "Big-Daddy" wide-body pair. These skis are designed for super easy deep-water starts and big, carving turns, at minimal effort. The extra surface area reduces drag and provides a huge amount of lift to get bigger skiers up on plane with ease. The large surface area also allows for skiing at a slower, more comfortable boat speed. A side benefit is it takes less horsepower to get Vortex skiers up, and these make an easy way to teach deep-water slalom starts. When there's any doubt about getting out of the water on a pair of skis, go with the O'Brien Vortex Combos. These are as close to a sure thing as you're going to find. Available in Red or Blue.

LENGTH	65.5" / 166cm
FIN	Nylon
BINDINGS	X-7 Adj. Bindings
FOOT SIZE	MENS 4.5 - 13

JR. VORTEX

WIDE-BODY SERIES

54"

It may seem like an oxymoron, but the Jr. Vortex Combos are the compact version of the "Big Daddy" adult Vortex combos. These skis are perfect for getting pre-teen to early teenage skiers up and out of the water and skiing like legends! They work great for lighter adults, too. The 54" Jr. Vortex offers the extra surface area that works so well on the adult Vortex, but in a smaller, more maneuverable size for younger and lighter skiers.

LENGTH	54" / 137cm
FIN	Nylon
BINDINGS	KIDS 2 - MENS 7
FOOT SIZE	Jr. 2-7

SIMPLE TRAINER

TRAINER SERIES

There are few joys in life that rival teaching your kids to ski. The inflatable Simple Trainer will get your child started the easy way in the sport you already love. It's soft, and cushy, and just plain friendly-looking. Additionally, the inflated seat gives your child a comfy perch to stand up from. The cozy stirrups are on an inflated floor that absorbs the wakes. It comes complete with two ropes, one for the child and one for an adult to hold onto from the boat. This trainer will plane off with virtually any movement (even pulling while running along the beach) and the max speed is a very rider-friendly 8 mph. When you're done using it, just let the air out and put it away. The Simple Trainer makes teaching the kids to ski nearly automatic. Simple!

INFLATABLE COMBO TRAINER
TRAINER ROPE W/ HANDLE
WEIGHT RANGE UP TO 85 LBS

PLATFORM TRAINER

TRAINER SERIES

Thousands of kids learned to ski on platform-style skis back in the 50's, 60's, and 70's. Well, what worked so well back then still works great today! When it comes to getting a little skier started right there's no substitute for surface area and the O'Brien Platform Trainers have surface area in abundance. Constructed of eco-friendly bamboo, the Platform Trainers are the whole training package, complete with a trainer rope and handle for the little skier to hold onto, and another rope for the observer in the boat. Your kids will be skiing in no time on the O'Brien Platform Trainers!

Constructed of eco-friendly Bamboo.

BAMBOO CONSTRUCTION

ALL STAR

TRAINER SERIES

When it's time to teach the kids to ski, the All-Star Trainers are the ultimate training tool! When you get a pair of All-Star Trainers, you are really getting a training system. These skis come with a stabilizer/trainer bar that prevents the skis from doing the "splits" and keeps them level. They also come with two ropes as part of the package; a short training rope and handle for the skier to hold that connects to the stabilizer/training bar at the front of the skis and a longer rope and handle to be held by an experienced observer in the boat. With this system, the observer can release the skier if they fall, taking the pressure off the kid. This system makes it incredibly easy to get them up and skiing with minimal drama. Supports a weight range up to 85 pounds with kid-sized adjustable bindings. These skis features a dual tunnel bottom which track great and create lots of lift. Molded-in fins are unbreakable and provide outstanding stability. The All-Stars are the perfect system for making your kids into waterskiers!

STABILIZER BAR
TRAINER ROPE W/ HANDLE
WEIGHT RANGE UP TO 85 LBS
BAMBOO CONSTRUCTION

EARTH FRIENDLY BAMBOO CONSTRUCTION

We all know that bamboo grows incredibly fast and is hailed as a great renewable resource. What people don't know is that compared to typical hardwoods it also produces 20 times more usable materials, reducing waste dramatically. Additionally, Bamboo produces more oxygen and absorbs more carbon dioxide than trees, which means that each and every bamboo shoot is doing its part to combat climate change. With bamboo being used more often as a building material this helps save hardwood trees from logging and, in the long run, our dying forests.

VERSA 2

.....ROTO SERIES.....

► WAKEBOARD

► WAKESURF

► KNEEBOARD

► SKI

The Versa 2 is the easiest way to get riders of all levels wakeboarding, kneeboarding, skiing, wakesurfing, and even wakeskating. Unique slip-on foot straps can be placed in a variety of positions, so you can choose your riding style. Handles can be removed or added for kneeboarding. The tow hook can also be added for easier starts or stress-free towing. The Versa is foam-filled and roto-molded with an EVA deck that's easy on your knees and feet. The progressive edge design allows the rider to cut back and forth across the wake with ease, while the rounded middle helps with surface tricks. Great for all ages and all skill levels. Tow rope is sold separately. Made in the USA.

- Great for all ages and skill levels
- Board lets you wakeboard, ski, kneeboard, and more
- EVA deck is comfortable to knees and feet
- Progressive edge lets you cut across the wake
- Includes handles, foot straps and tow hook

RICOCHET

..... FEATHERCORE SERIES

The Ricochet is the perfect transition board for anyone stepping up from a plastic, rotationally-molded kneeboard. Built with the same quality materials as our flagship boards, the Ricochet brings pro-level performance at a value price. The twin tip and V-Hull design pairs high-performance with easy riding comfort that you're sure to love. Compression molded construction coupled with a molded flex pad and a 3" padded strap mean acceleration and a secure fit. Comes with a molded-in hook to make training a breeze. It's the perfect entry to high-performance kneeboarding.

LENGTH: 51.5"
WIDTH: 22.3"
STRAP: 3" padded, adjustable strap
TIP ROCKER: 3.5"
TAIL ROCKER: 1.55"

- ▶ EVA Pad
- ▶ Feather Core
- ▶ Integrated Aquatic Hook

RADICA

ROTO SERIES

AQUATIC HOOK

RETRACTABLE FINS

Capable of doing it all, the Black Magic is the best "family" kneeboard on the market. Its famous cable-actuated retractable fin system and aquatic hook make the Black Magic the perfect board for successfully teaching kids and beginners the finer points of deep-water starts. Its size is pairs well with adults and kids alike and its smooth bottom contouring delivers a super stable and extremely comfortable ride for all.

LENGTH: 51.5"
WIDTH: 22.3"

- ▶ Retractable fins
- ▶ EVA Pad
- ▶ Aquatic hook
- ▶ 3" padded, adjustable strap
- ▶ Durable plastic base

INTERGRATED AQUATIC HOOK

The VooDoo combines hard-charging runs at the wake with a forgiving ride. Quad molded fins at each corner provide extra tracking and the curved underside makes for quick and smooth edge transitions. The 3/4" thick pad provides plush comfort for your knees and ankles, while the 3-inch padded strap secures you for maximum control.

LENGTH: 51.25"
WIDTH: 22"

- ▶ 3" padded, adjustable strap
- ▶ Integrated Aquatic Hook
- ▶ 3/4" thick EVA pad
- ▶ Variable beveled edge
- ▶ Quad molded fins

INTERGRATED AQUATIC HOOK

We've blended wakeboard and waterski design elements into the Radica to bring levels of performance previously unheard of at this price. With wakeboard-style cupped quad molded fins, the Radica edges and carves like no other while still allowing the board to release for spins. Pulling tech from waterskis, the Radica utilizes a beveled edge to help the board sit lower in the water for added stability and quick edge-to-edge transitions.

LENGTH: 49.7"
WIDTH: 20.1"

- ▶ 3" padded, adjustable strap
- ▶ Integrated Aquatic Hook
- ▶ 3/4" thick EVA pad
- ▶ Variable beveled edge
- ▶ Quad molded fins

RESPECT

..... FEATHERCORE SERIES

The Hydroslide Respect is suited for larger riders due to its stiffness and large surface area; providing a very efficient ride and a huge amount of lift. Its aggressive rocker line and hand turned bevels give you the extra control needed to take your riding to new heights. The Respect's pad has ultra deep knee wells and dual density EVA foam construction for extreme comfort and control. It's the perfect way to step up from traditional roto-molded boards.

LENGTH: 51.5" WIDTH: 22.3"

- ▶ Feathercore construction
- ▶ Aggressive rocker line
- ▶ Hand turned beveled edge
- ▶ 2:1 ratio fully padded Cinch Strap
- ▶ Twin-tip design
- ▶ Deep, shock absorbing knee wells

RAZORBACK

..... ROTO SERIES

The board features a 3" padded Shock Strap, thin profile design, shift-on-the-fly retractable fins, deep padded knee wells, and the patented Hydrohook. Whether you have the fins down for slalom-like control or up for surface 360s, this kneeboard provides an exciting ride. Hydrohook pops up when in use and then automatically retracts to avoid cuts and bruises. Made in the USA.

LENGTH: 52.25" WIDTH: 21"

- ▶ Shift-on-the-fly dual retractable fins
- ▶ 3" padded Shock Strap
- ▶ Parabolic twin-tip design
- ▶ EVA pad with deep knee wells
- ▶ Patented thin profile
- ▶ Hydrohook

PRO XLT

..... ROTO SERIES

The Pro XLT features a thin profile, parabolic twin tip design with dual retractable fins, a contoured EVA kneepad and a high performance shock strap for ultimate board control. The Pro XLT also features the patented Hydrohook to help beginners get up and riding quickly and easily. Made in the USA.

LENGTH: 51.75" WIDTH: 21"

- ▶ Dual retractable fins
- ▶ 3" padded Shock Strap
- ▶ Parabolic twin-tip design
- ▶ EVA pad with deep knee wells
- ▶ Patented thin profile
- ▶ Hydrohook

HYDROHOOK

The Hydroslide Hydrohook was designed to help lock the handle to the board and make it easy for beginners to get up the first time and every time thereafter. It also gives experts a whole new way to enjoy the ride and with its spring-loaded action the Hydrohook retracts and remains flush with the deck when not in use.

PHANTOM

..... ROTO SERIES

The Hydroslide Phantom is a parabolic twin-tip shaped, thin-profile kneeboard that gives the rider an experience hotter than the board's graphics. Deep knee wells and a 3" padded strap keep the rider in control and ready for the biggest maneuvers. The Hydrohook, with its spring-loaded action, allows the first-time rider to get up quickly and easily and then retracts and remains flush with the deck when not in use. Made in the USA.

LENGTH: 52.25" WIDTH: 21"

- ▶ 3" padded strap
- ▶ Parabolic twin-tip design
- ▶ EVA pad with deep knee wells
- ▶ Patented thin profile
- ▶ Hydrohook

KNEEBOARD BAG

Keep your kneeboard protected and safe from the sun.

REVOLUTION

..... ROTO SERIES

The Revolution features a classic spoon shape that gives it a smooth, easy ride with quick edge-to-edge transitions - without sacrificing any pop off the wake. Its thin-profile design not only looks great but it also delivers the performance found with more expensive boards. The Hydrohook, with its spring-loaded action, allows the first-time rider to get up quickly and easily and then retracts and remains flush with the deck when not in use. Made in the USA.

LENGTH: 52.5" WIDTH: 20.5"

- ▶ 3" padded strap
- ▶ Classic spoon shape
- ▶ EVA pad with deep knee wells
- ▶ Patented thin profile
- ▶ Hydrohook

MAGNA

..... ROTO SERIES

Designed for smaller, intermediate riders, the Hydroslide Magna kneeboard has a classic shape that gives it a smooth, easy ride without sacrificing any pop off the wake. Its EVA pad with deep knee wells is coupled with a 3" padded belt to give the rider superb control during every trick and maneuver. Its thin-profile design provides a great look as well as outstanding performance. To top it off, the Magna comes with the built-in Hydrohook for effortless starts. Its spring-loaded action allows the first-time rider to get up quickly and easily and then retracts and remains flush with the deck when not in use. Made in USA Board Size: 43" x 20" x 4.5". Made in the USA.

LENGTH: 43.5" WIDTH: 20"

- ▶ Built for smaller, intermediate riders (Up to 120 lbs)
- ▶ 3" padded strap
- ▶ Classic shape
- ▶ EVA pad with deep knee wells
- ▶ Patented thin profile
- ▶ Hydrohook

LOTUS YOGA FLOAT

..... DROP STITCH SERIES

- ▶ **STANDARD** - 7' X 3' X 5"
- ▶ **DELUXE** - 8' X 3' X 5"
- ▶ PREMIUM 5" DROP STITCH CONSTRUCTION
- ▶ DOUBLE REINFORCED SEAMS
- ▶ COMFORTABLE, NON-SLIP DECK PAD
- ▶ INFLATES TO A RIGID PLATFORM
- ▶ TIE-OFF D-RINGS
- ▶ INTEGRATED HANDLES (DELUXE ONLY)
- ▶ DEFLATES QUICKLY FOR CONVENIENT STORAGE
- ▶ DUAL ACTION PUMP AND STORAGE BAG INCLUDED

Take your yoga practice to the next level on the water! Our Lotus Yoga Float helps you unwind while you breathe fresh air and feel the water beneath you. Floating on the water adds elements of freedom and instability to your workout; providing better engagement of your core as well as instantaneous feedback on technique. Too much weight on one side during a pose will cause the mat to tilt; letting you know to correct your body position. Your movements will slow down, your poses will be more precise and you'll enhance your connection with nature and your body; all while developing mindfulness, focus and balance.

STANDARD

DELUXE

ANCHOR BAG

- ▶ 14" Diameter x 17" Tall
- ▶ 7' Rope Length

Make your time on the water even more memorable with the O'Brien Water Carpet. Whether you're running, jumping or just lounging in the sun, the Water Carpet provides countless hours of fun. With its soft, 3-ply polyethylene construction, this float is perfect for playing on and it never requires inflating. When you are all worn out from having too much fun, just roll it up and secure the Water Carpet with the included nylon straps for easy storage.

WATER CARPET

AVAILABLE SIZES:

12' x 6' x 1.25"

18' x 6' x 1.25"

- ▶ Holds up to 6 people

5-SECTION COMBO

- ▶ One of the most versatile ropes in our line
- ▶ 75' total rope length (includes handle)
- ▶ 5 sections for skiing at 15', 22', 28', and 32' off (line lengths of 75', 60', 53', 47' and 43')
- ▶ 12" wide aluminum-core handle with our ultimate rubber grip on a 5' detachable bridle section
- ▶ Top-quality 16-strand, 40 filament polypropylene rope

2-SECTION COMBO

- ▶ Least expensive, all-purpose rope
- ▶ 75' total rope length (includes handle)
- ▶ Single takeoff loop at 28' off (line length of 47')
- ▶ 75' is the standard length for skiing, while 47' is a good starting length for wakeboarding and kneeboarding
- ▶ 12" wide aluminum- core Sure-Grip handle on 5' detachable bridle section
- ▶ Top-quality 16-strand, 40 filament polypropylene rope

1-SECTION COMBO

- ▶ Simple, good quality ski rope
- ▶ 75' total rope length (includes handle)
- ▶ 12" wide aluminum- core Sure-Grip handle on 5' detachable bridle section
- ▶ Top-quality 16-strand, 40 filament polypropylene rope
- ▶ Available in Orange/White and Yellow/Black

1-SECTION DEEP-V COMBO

- ▶ Perfect rope for anyone learning deep-water slalom starts
- ▶ Place ski in the DEEP-V bridle section and let it do the work in keeping the ski straight
- ▶ Bridle will slide out from under the ski once the skier pops up
- ▶ Crossbar in bridle helps keep ski tip in position and protects against crunched knuckles
- ▶ Vinly coated bridle protects the rope from ski abrasion
- ▶ 75' total rope length (includes handle)
- ▶ 12" wide aluminum-core handle on a 5' detachable DEEP-V bridle section
- ▶ Top quality 16 strand, 40 filament polypropylene rope

KNEEBOARD ROPE AND HANDLE

- ▶ 2 Sections 75' Total (15', 50')
- ▶ UV Resistant
- ▶ 12" EVA Handle
- ▶ Foam "V" to Protect Kneeboard
- ▶ Designed for use with the HydroHook
- ▶ Meets/Exceeds WSIA Standards

2-PERSON TUBE ROPE

- ▶ Perfect tube rope for 1 or 2 person tubes (max. total rider weight of 340 lbs)
- ▶ 60' rope length
- ▶ Average break strength - 2,375 lbs
- ▶ Available in Green, Red or Orange

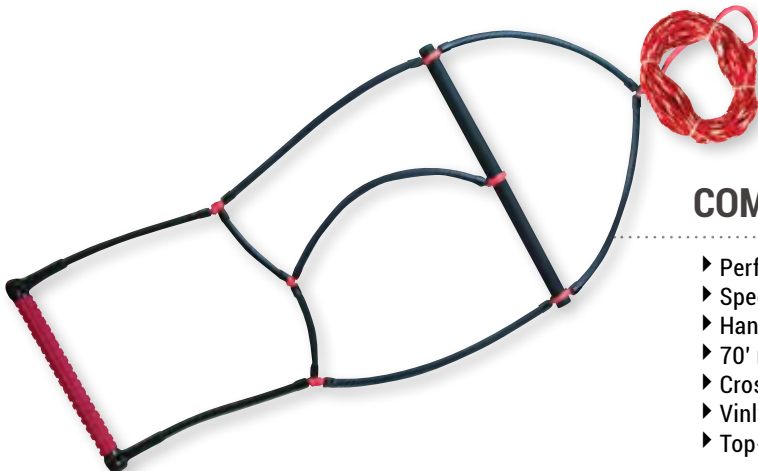

4-PERSON TUBE ROPE

- ▶ Our most popular tube rope
- ▶ Rated for tubes with up to 4 riders (max. total rider weight of 680 lbs)
- ▶ 60' rope length

MARGARITAVILLE

PARTY ISLE DROP STITCH MAT

- ▶ DUAL ACTION PUMP AND STORAGE BAG INCLUDED
- ▶ QUICKLINK D-RINGS FOR EASY ANCHORING
- ▶ PREMIUM 4" DROP STITCH TECHNOLOGY
- ▶ INTEGRATED CARRYING HANDLES
- ▶ DOUBLE REINFORCED SEAMS
- ▶ DEFLATES QUICKLY FOR CONVENIENT STORAGE
- ▶ AVAILABLE IN 2 SIZES

- ▶ 12' SIZE: 6' X 12' X 4"
- ▶ 10' SIZE: 5' X 10' X 4"

Escape to paradise with your very own Margaritaville Party Isle! This heavy-duty, inflatable island is the perfect spot for you and some friends to relax and lounge in the sun. If relaxing isn't your thing the Party Isle is perfectly capable of keeping the fun flowing; being stable enough for running, jumping and playing the day away. Just pump it up with the included dual-action pump and enjoy your time on the water. This premium 4" drop-stitch float inflates to a rigid platform and features double reinforced seams for enhanced reliability. With D-rings every two feet, it's easy to secure your Party Isle to your boat, dock, anchor, or other Party Isles. Once you are worn out from having too much fun, simply deflate the Party Isle and pack it into the included bag for convenient storage.

MARGARITAVILLE

COOLER TECH

SOFT CUSHIONED SEAT (OPTIONAL)

Removable, lid mounted seat with an adjustable backrest so you always have a nice, dry spot to take a load off.

LOCKING LID

Keep wild animals or your beverage snatching friends out of your cooler.

HEAVY-DUTY T-GRIP LATCHES

Easy-to-grip rubber latches make for effortless opening and closing.

INTERLOCKING LID

Improves structural integrity and blocks heat from entering the cooler.

FAIL-FREE HINGES

Fully enclosed, interlocking hinge design that will last the long haul.

WATERTIGHT SEAL

Our watertight Glacier Gasket creates a vacuum seal to trap in the cold.

ARCTIC INSULATION

Up to 2.5" thick, this high R-Value foam enhances the cooler's ability to store ice for over a week.

23 QUART CAPACITY

Holds a 24 pack of 12 oz cans and 8 lbs of ice. Perfect for a day out in the sun; boating, camping, hunting, weekend getaways or even tailgating at your favorite sporting event.

HEAVY DUTY STAINLESS STEEL HANDLE

With its ability to rotate forwards, backwards, and lock into an upright position, this extra sturdy handle features a fully padded grip area designed for easy carrying.

SWEAT-FREE EXTERIOR

Keep the cooler and everything around it dry.

NON SLIP FEET

Four 2" diameter non-slip feet keep the cooler from sliding around and elevate it to minimize contact with hot surfaces.

QUICK FLOW DRAIN PLUG

Oversized, leakproof and durable for fast, efficient draining.

Built tough, a SUB-Z cooler is the perfect companion for outdoor adventures, boating excursions, fishing trips and gameday festivities. Its ultra-sturdy, rotomolded construction features a double-walled polyethylene shell filled with our specially formulated Arctic Insulation. Not only is this cooler designed to handle all types of abuse, but in pairing the construction and insulation with our air/watertight Glacier Gasket seal, SUB-Z coolers effectively create their own microenvironment and efficiently trap the cold in for days. Available in 23 quart and 48 quart sizes (both with optional cushioned seats), our high performance coolers are a must for any upcoming adventure. Keep cool and stay hydrated with SUB-Z. Made in USA.
