Powerful Performance

Tri-speed switch with 2m/s (4.47 mph) Max

Quickly switch between three speeds for when you want to maneuver, cruise, and jet and find new ways to explore underwater. Top speed 2m/s (4.47 mph): Move as fast as the Men's 200m World Freestyle Champion.

Up to 75 minutes of battery life

A maximum of 75 mins battery life (per single charge) delivers the ultimate underwater experience. Make the most of your dive: Save energy and consume less air. Use for over an hour, moving underwater, and maneuver for the ultimate underwater photography session.

Exceptional waterproof performance 40m (131ft)

Industry-leading sealing and waterproofing technology. Patented waterproof rechargeable lithium battery features an independent sealing design that allows users to swap easily.

Superior Experience

One-handed control with professional cruise equipment included

Can be set for one-handed operation mode, with D-Ring buckle and tow rope in the included cruise kit. For easy operation for cruising, pressure-equalizing, and underwater photography.

Compatible with many cameras and equipment

It can be equipped with various action cameras, lights, underwater camera housings, and balance weights. Featured accessories are available for the underwater photography platform, to help you proceed to advanced underwater photography.

OLED Data Display for optimal status quick view

The OLED displays data including speed, battery power, hand operation mode and running time continuously.

Low battery alert

The unit also features a low battery alert that will flash and vibrate the unit.

* The rated speed is the result of product test results and may be affected by user, user's swimwear and equipment, water conditions, etc.

* Battery life is for reference and based on product test data. It is the average value of the maximum time that the user can operate the scooter according to general usage (discontinuous operation) when the battery is fully charged.

* The scooter is designed for users 16+ years old. Minors must be accompanied by a parent or guardian while using the scooter.

A diver is shown underwater in clear blue water, holding a large, professional-looking camera. The diver is wearing a mask and fins. The camera has a prominent lens and a viewfinder. The diver's body is partially visible, showing a tattoo on the left arm and a "Subblue" logo on the right arm. The water is bright blue with some ripples and light reflections.
