THE  
OPPORTUNITY  
AHEAD

# SEA POOLS

A SeaRaft Sea Pool Marina is the perfect recreational toy for superyacht owners and their guests, raising comfort and entertainment to the highest level.

Although designed with your guests in mind, the SeaRaft Sea Pool remains lightweight and compact for easy assembly, cleaning, stowing and maintenance by the crew.

*“Submerged swim access ladders can be added as a design option.”*

Usually made up of four component platforms with an internal marine life free net, the Sea Pools can be designed simply as a place to swim or sunbathe or additionally modified to accommodate docks for jet skis and tenders and other toys. Pools can also be manufactured in one-piece dependent upon size.

# SEARAFT EXPANDS YOUR SEA LIFE

A SeaRaft Sea Pool marina extends your first-class facilities out beyond the traditional boundaries of the yacht and offers a slice of paradise from an alternative perspective - sea level.

Guests can bask in the sun and trail their fingers in the protected waters of a private Sea Pool. An idyllic luxury not afforded to those high above the water on-board the yacht.

# JET SKI DOCKS

Docking Jet Skis or Seabobs can be difficult for even the most experienced riders. SeaRafts Jet Ski Docks have been designed to protect both passengers and craft by providing a safe and easy transfer to the yacht.

We offer several standard designs and sizes or we can tailor our platforms to your particular specification to create the perfect solution for your yacht.

We carry several standard sized T-or M-shaped Jet Ski Docks, ranging from 1 to 6 skis and available in a one-piece or modular setup. SeaRaft Jet Ski Docks are supplied as standard with water ballast bags, soft grip carry handles, d-rings, rubbing strake around. All packed and protected in a practical storage- and carrying bag. Simple and straight forward.

Our Jet Ski Docks not only hold jet skis but Seabobs and other water toys, all shaped to the yachts specific stern profile. From small sectional components to large custom platforms, we can find the exact configuration to suit your needs.

“Combining Sea Pools & Jet Ski Docks provides you with the space you need to work & play.”

# LEISURE & MAINTENANCE PLATFORMS

In need of extra deck space while on the water? Nothing can offer a more perfect solution than a SeaRaft Inflatable Platform. There are multiple options for you and your guests; SeaRaft Standard Platforms are an economic and creative way of extending valuable deck space.

“We carry several kind of top finishes such as the Original Teak Deck anti-skid and the Diamond Shaped Deck anti slip.”

# MAKING LIGHT WORK

‘We offer standard Yacht (Maintenance) Platforms sized from 3,0 x 1,5m (model 450) to 4,0 x 2,0m (model 800). Due to their stability, strength and extreme light weight, these individual platforms enable activities such as sunbathing, docking, or maintenance and repair tasks.’

# CUSTOM DESIGN

SeaRaft is unique in producing customised, high-quality inflatable solutions for the superyacht industry. Using only the highest quality fabrics combined with superior gluing techniques, our rafts are designed and fabricated under one roof in Germany, creating the lightest, stiffest, and easiest to use platforms on the market.

“Taking your platform design to the ultimate level. You dream it, We build it.”

We understand the importance to owners and crew of protecting both yacht and smaller craft, and that's why each platform is constructed and customised to its specific use and the owner's personal requirements.

Think of floating marinas that hold jet skis, Seabobs and other water toys, netted sea pools for swimming in safety or a fun space for sunbathing, all shaped to the yachts specific stern profile. From small sectional components to large custom platforms, we can make it yours.

The unparalleled versatility of the platforms and accessories is what really sets SeaRaft apart. With matching sizes and the flexibility of strategically located anchor points, building or changing configurations is quick and hassle free.

With SeaRaft's modular systems, you can truly create the perfect solution for all your needs. From side-by-side linking that allows for longer maintenance platforms, walkways and pontoons to full jetski, Seabob and Sea Pool setups.

From a fully extended configuration to a simple Jet Ski Dock, a stable work platform for crew or guest leisure space, our modular design approach allows for easy connection to any part of your yacht and the platforms can be quickly and efficiently transformed from one task to another.

SeaRaft's ingeniously designed, meticulously crafted, interchangeable platforms make them a cost effective solution for any situation.

# YACHT SLIDES & TOYS

The craftsmanship and renowned quality that goes into our rafts is now available in our wide range of Yacht Slides & Toys. Making SeaRaft the go-to supplier for your complete range of inflatables, and the perfect solution to matching platforms and toys.

Our Yacht Toys can be customized to any size. Connect and combine our other Inflatable Yacht Toys, such as the SeaRaft Floating Trampolines and our Climbing Water Tower.

SeaRaft Inflatable Yacht Slides are fully custom built to fit perfectly to your yacht. We offer various model options such as Yacht Slides with or without a leg support, straight or curved, long or short.

With your imagination and SeaRaft's Inflatables, you can transform your yacht into the ultimate playground.

“SeaRaft inflatables; we have your perfect solution to play without limitations.”

# ACCESSORIES

SeaRaft offer a wide range of high quality accessories to enhance your platform. From Air Steps that improve ease of access to your Sea Pool or Jet Ski Dock to Seats & Air loungers that allow you to relax anywhere on the yacht or the beach.

## INFINITY AIR STAIRS

The Infinity Air Stairs are designed to facilitate safe water access in style. The lightweight aluminum 5-steps stair system is easy to set up and after use, folds away for compact storage. Guaranteed not to rust or corrode, they are super lightweight yet very strong. A removable stainless steel Hand Rails set is optionally available.

Choose between our mobile inflated u-shape Infinity Air Stairs system or integrate the Infinity Stairs completely into your platform.

## AIR STEPS

Air Steps are specially designed for a comfortable access from the raft to the yachts swim platform, beach club or tender garage.

## SWIM LADDERS

Our Boarding and Swim Ladders provide comfortable and secure access to and from the water.

## SEATS & AIR LOUNGERS

At SeaRaft, we carry various models (both aluminium and inflated) designed to provide maximum comfort while being lightweight and compact to store.

## AIR CONNECTION SYSTEM

The Air Connection System allows for inflatable platforms to be linked in multiple configurations.

## AIR BUMPERS

Air Bumpers are a strong and secure 'fender' like product which prevents rafts from drifting under the swim platform or transom.

## MAINTENANCE COVERS

Convert your Leisure Platform into a work- and washdown raft with ease, to fully protect the platform during various handling's such as washdowns, paintings and other repair tasks.

# SEARAFT – WHEN QUALITY COUNTS

- Handmade in Europe by our team of highly skilled craftsmen
- Constructed from the highest quality fabrics and materials from Germany
- REACH compliant

## QUALITY

SeaRaft manufacture customised inflatable platforms and rafts, using the strongest materials available. Superior design and quality ensures outstanding durability and long life, combined with functionality and aesthetics – guaranteeing that SeaRaft products are the yachting essentials you will enjoy for years to come.

### HEYTEX DOUBLE WALL FABRIC (DWF)

SeaRaft platforms are made from HEYtex PVC boat fabric and double-wall fabric (DWF), giving our platforms unparalleled strength and stability, combined with unbeatable lightness. Working in partnership with HEYtex Germany, the world's leading manufacturer of technical textiles, we carry out intensive laboratory testing, so you can be sure you have the industry benchmark in platforms.

## CONTACT US

Every luxury yacht is unique and as such they demand bespoke solutions, so it is imperative that a platform is designed and customised according to specific use and the owners personal requirements.

Share your ideas with us and we will turn them into reality!

Get in touch with us, and we will be more than happy to assist you.
